*Handbook of Ratings* Alexander Karminsky, Andrey Polozov, 2016-08-04 This handbook presents a systematic overview of approaches to diversity and problems involved in interdisciplinary rating methodologies Historically the purpose of ratings is to achieve information transparency regarding a given body's activities whether in the field of finance banking or sports for example This book focuses on commonly used rating methods in three important fields finance sports and the social sector In the world of finance investment decisions are largely shaped by how positively or negatively economies or financial instruments are rated Ratings have thus become a basis of trust for investors Similarly sports evaluation and funding are largely based on core ratings From local communities to groups of nations public investment and funding are also dependent on how these bodies are continuously rated against expected performance targets As such ratings need to reflect the consensus of all stakeholders on selected aspects of the work and how to evaluate their success The public should also have the opportunity to participate in this process The authors examine current rating approaches from a variety of proposals that are closest to the public consensus analyzing the rating models and summarizing the methods of their construction This handbook offers a valuable reference guide for managers analysts economists business informatics specialists and researchers alike

*Rethink the MBA: Why Business School is Riskier Than You Think* Micah Merrick, 2014-03-03 My name is Micah I graduated with an MBA from Wharton in 2009 I originally went to business school to become an entrepreneur It was a bad decision I believe many people decide to get an MBA for the wrong reasons like me If you're thinking about getting an MBA but don't want to work in Banking or Consulting this book is for you I should never have gotten an MBA Maybe you shouldn't either This book explains why and has some useful advice about what you can do instead Thanks for reading

**Reimagining Democratic Societies** Sjur Bergan, Ira Richard Harkavy, Hillegje van't Land, Council of Europe, 2013-01-01 Reimagining democratic societies although a demanding task is one in which higher education must engage As societies change our understanding of democracy must also evolve We need democratic institutions but also democratic culture and democratic innovation Citizen participation as a cornerstone of democracy must go beyond citizen mobilisation on just a few issues An educated committed citizenry deeply involved in creating and sustaining diverse democratic societies is essential for human progress and advancing the quality of life for all The authors academics policy makers and practitioners from Europe and the United States argue this point making the case for why democratic reimagination and innovation cannot succeed without higher education and why higher education cannot fulfil its educational academic and societal missions without working for the common good Case studies provide examples of how higher education can contribute to reimagining and reinvigorating democracy
