Flexible Control of Downloaded Executable Content Trent Jaeger,1997 Abstract We present a system for managing the execution of downloaded executable content according to flexibly defined security policies Downloaded executable content are messages downloaded from remote hosts that contain executables that are run on the downloading principal s machine upon receipt Since executables run by downloading principals have their full protection domain by default executable content must be controlled to prevent unauthorized access to the downloading principals resources Current systems attempt to control content using a fixed security policy designed for standalone content but these policies are inappropriate for several applications For example current content loading policies do not account for the fact that content from multiple hosts may be combined into one application In this paper we describe a downloaded content execution system that can enforce a variety of security policies covering content download content protection domain derivation and content authorization This system enables privileged principals to define the decisions that less privileged principals are allowed to make For example system administrators can define legitimate authentication policies for applications and application developers can define when the downloading principal s rights can be delegated to other application participants within limits set by system administrators We show how policies for collaborative applications can be defined and enforced Also we describe and compare three implementations of the system [The Road to Flexible Manufacturing](#) ,1983 **Ideas About Writing** Merrill Glustrom Ph.D.,2022-09-28 Ideas About Writing is an entry level text for community college and high school writing classes Everything about this book is practical not theoretical and designed to help your writing in school and career The method the book uses for organizing writing revising and editing essays can be applied to every essay you write And the skills you learn will help you for the rest of your life **Software and CD-ROM Reviews on File** ,2005 **Electronic Design** ,1985 [Database](#) ,1993 [The East](#) ,2000 [PC World](#) ,2007 [Fifth IEE International Conference on 3G Mobile Communication Technologies \(3G 2004\)](#) ,2004 3G 2004 was the premier technical forum for 3G mobile and related technologies in it s fifth successful year The conference brought together researchers and technologists from manufacturers service providers operators application developers regulators and standards bodies to share the latest information and promote the development of 3G services systems and networks [Proceedings](#) ,2003 **Expanding and Networking Microcomputers** Dennis Longley,Michael Shain,1985 **ICASSP 81** ,1981 **Future Proof** Nick Sagan,Andy Walker,Mark Frary,2008 This title charts from prototype to realization the real life technical evolution of 50 of the most poplar science fiction inventions It is essential reading for the technology addict or SF film fan Detailing the history the reality and the tech spec of 50 of science fiction s most brilliant crime fighting space travelling remote controlled lightspeed artificially intelligent inventions Future Proof is required reading for anyone who knows their wormhole from their black holes It features Buck Rogers jetpack Jetsons Flying cars Star Trek s transporters The Six Million Dollar Man s cyborg
