Memoriale Katholiek Leven In Nederland In De Twintigste Eeuw:

Memoriale Herman Pijfers, 1996-01-01 Historisch overzicht in woord en beeld van het rooms katholicisme in Nederland in de 20ste eeuw *Models of Charitable Care: Catholic Nuns and Children in their Care in Amsterdam, 1852-2002* Annelies van Heijst, 2008-06-30 *Models of Charitable Care* analyses the practice of Catholic nuns in Amsterdam in the 19th and 20th century Attention is paid to the ambiguous ascetic spiritual discourse that underpinned their work it encouraged charity as solidarity with strangers but caused intense emotional distance too Historiography is mainly manufactured by religious and lay academics who shared the congregational perspective and presented fairly positive evaluations Criticism from within however is voiced by care leavers who grew up in homes ran by religious Some are grateful others bitter The sisters were living models who combined an anti worldly outlook with a practical concern for vulnerable creatures Relating various theoretical interpretations a typology of three models is developed with agency as the differentiating criterion *Handbook of Dutch Church History* Herman J. Selderhuis, 2014-12-10 Herman Selderhuis as editor of this volume has brought together a team of experts resulting in a unique approach since each chapter is co written by a catholic and a protestant author who have all integrated the latest research results Each section begins with a brief historiographical overview The same time ecclesiastical events are always set within a greater framework of political social and cultural developments for which reason each author has taken the liberty to describe its own method The user will find in this book tables diagrams and illustrations Also many source texts are integrated in the narration Theses texts are intended to bring the described events and people closer to the reader and as it were to let them speak the words The name of the book as Handbook of the church history of the Netherlands immediately brings to mind three problematic complexes which are relevant to its user First there is the nature of a handbook that is intended to be a good tool but also has its limitations it stimulates and necessitates the use of further books Second the area The Netherlands is a plurality and that is also noticeable in its church history for each region town and village has its own church history Third the history of the church for sure is the most important aspect but this history can only be understood if it is described in the context of political and social developments We Agreed to be Different Annemiek van der Veen, Dolly Verhoeven, 2005 *Episcopacy, Authority, and Gender* Jan Wim Buisman, Marjet Derks, Peter Raedts, 2015-09-07 What is the base of religious leadership and how has it changed over the centuries This volume presents a range of actors both men and women who in a variety of historical contexts claimed to be the living voices or intermediaries of God The essays analyse the foundation of their authoritative claims and ask how and how far they succeeded in securing obedience from the Christians to whom they addressed their message Religious authority is not understood as a monolithic entity but as something derived from many sources and claims Whatever the national background whether ordained or supposedly appointed through divine intervention the histories of the people portrayed underline the long term manifestations and multifaceted nature of Christian identity *Can a Seamless Garment be Truly Torn?* Peter

Steffen, Hans Evers, 2014 The conversion of Lutz L b and Jenny van Gelder from Judaism to Roman Catholicism dramatically changed the lives of the extended L b family This scientific historical study traces the personal and spiritual journey of Lutz and Jenny from their baptisms in 1907 through the lives of their children The story benefits from historical documents and pieces of oral history from the only one of their eight children who survived the Nazi era Paula van Broekhoven L b The abbess of Koningsoord Abbey and the abbot of Koningshoeven Abbey generously provided access to the archives of the monasteries where the seven other L b children lived as nuns and monks of the L b family Each chapter begins with a citation from a significant situation or event placing the reader immediately within the lived experience of that period Photos of the time and the family supplement the historical narrative The secret conversion of Lutz and Jenny and their lifelong witness to their faith created a tear in the fabric of the extended family while later leading to many idealized portrayals of them and their children It is the intent of this book to offer an accurate and balanced account situating the Catholic L b family within their extended Jewish family and to correct several decades of hagiography so restoring humanity and dignity to the memories of the L b family *Nijmegen: Negentiende en twintigste eeuw*, 2005 A Visual Approach to the Study of Religious Orders Marcin Jewdokimow, Thomas Quartier, OSB, 2019-05-01 A Visual Approach to the Study of Religious Orders applies visual methods to the exploration of various facets of religious life such as everyday lived experience contemporary monastic identity or monastic architecture Presenting a series of visual essays it treats images not as simple illustrations but as an autonomous form of expression capable of unveiling vital and developmental layers of experience while inviting readers to examine and interpret the data themselves The first book of its kind it brings together case studies from various locations across Europe to demonstrate what the use of visual methodologies can contribute to social scientific research on religious orders As such it will appeal to scholars and students of sociology religious studies and theology and anyone with interests in religious orders *Nederlandse religiegeschiedenis* Joris van Eijnatten, F. A. van Lieburg, 2005 Historisch overzicht van religieuze ontwikkelingen in Nederland vanaf de vroegste tijden zowel binnen als buiten het christendom **Christianity in the Netherlands** Rijksmuseum Het Catharijneconvent, 2006 **Bijdragen en mededelingen betreffende de geschiedenis der nederlanden**, 1999 *Dutch Jews as Perceived by Themselves and by Others* Chaya Brasz, Yosef Kaplan, 2001 This study Encompasses a variety of topics relating to Dutch Jewry from the beginning of Jewish settlement through the Holocaust **Kroniek**, 1997 Jaren van opgang R. L. Schuurisma, 2000 De geschiedenis van Nederland in de eerste decennia van de twintigste eeuw toen op economisch cultureel en sociaal maatschappelijk terrein een sterke vooruitgang te zien was Trajecta, 2004 Mixing Ovaries and Rosaries Marloes Marringje Schoonheim, 2005 This book aims at disclosing the mechanism behind the influence of religion on Catholic fertility behavior in the Netherlands between 1870 and 1970 Schoonheim studies the relationship between faith and fertility on different levels of Dutch society She explains the way religion from the late nineteenth century onwards came to constitute a nationwide social structure Research

on six Catholic municipalities points out how socio economic and cultural circumstances stimulated or discouraged the introduction of family planning On an individual level letters by Catholic women show the different ways in which believers were confronted with doctrines that affected reproduction Only in the nineteen sixties did the relationship between Catholic religion and reproduction change dramatically on each of these levels In less than a decade fertility rates in Catholic regions tumbled to become the lowest of the Netherlands BOOK JACKET **International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences** ,1999 *In verband met Brabant* ,1997 **Boekblad** ,1999-04 **Katholischer Antisemitismus im 19.
