Men Of The Far Right:

Young People and the Far Right Pam Nilan, 2021-05-10 This book looks at how young people get attracted to the Far Right especially young white men We may never know why a young individual ends up there yet two things are obvious First Far Right propaganda appeals to the fantasy imagination and to the emotions Second supporting the Far Right is a decision often made by digitally networked 15 25 year olds looking for answers and wanting to express their anger However many later become aware of a yawning gulf between the ideal future they envisioned and what happens in the here and now Accounts of the Far Right often focus on terrorist events plots or extreme acts of violence However the emphasis here is on rather ordinary young people and how they get involved in a social movement that promises adventure and belonging The aim is to better understand how their hate practices are framed and channeled by the persuasive discourse of the Far Right
