Mentoring 101 Discussion Guide By Chapter:

Crew Resource Management: Principles and Practice Paul LeSage, Jeff T. Dyar, Bruce Evans, 2009-11-23 All fire departments are designed to achieve objectives like minimizing the loss of life and property but few departments that fail to emphasize crew resource management CRM principles on an ongoing basis succeed in getting the most out of its various teams to best achieve these goals Crew Resource Management Principles and Practice will teach fire department leaders the critical CRM skills needed to get the most out of every individual department member and to create an entire organization dedicated to the philosophy that the whole is greater than the sum of its parts Crew Resource Management Principles and Practice will help fire department leaders to eliminate communication barriers within various teams improve the lines of communication between fire fighters and their superiors maximize synergies between teams through cross training while also improving individual performance and teach situational awareness and decision making skills to help department members succeed in even the most challenging conditions *Effective Police Supervision Study Guide* Chris Rush Burkey, Larry S. Miller, Michael C. Braswell, 2017-03-16 Good police officers are often promoted to supervisory positions with little or none of the training it takes to be a good manager An understanding of group behaviors and organizational dynamics is necessary to grasp the fundamentals of managing police officers The Effective Police Supervision Study Guide coordinates with the core text used in many college level classes and police departments to teach supervisory practices in criminal justice This study guide prepares both students and professionals for academic or promotional exams offering them an opportunity to fully review the material so that they are well prepared for testing This new edition like the new edition of the textbook it accompanies includes information on the following topics police accountability police involvement with news media the challenges of dealing with social media updates on legal considerations and ways to avoid another controversy like Ferguson Dallas or Baltimore The Next Generation of Scientists in Africa Beaudry, Catherine, Mouton, Johann, 2018-11-23 Young scientists are a powerful resource for change and sustainable development as they drive innovation and knowledge creation However comparable findings on young scientists in various countries especially in Africa and developing regions are generally sparse Therefore empirical knowledge on the state of early career scientists is critical in order to address current challenges faced by those scientists in Africa This book reports on the main findings of a three and a half year international project in order to assist its readers in better understanding the African research system in general and more specifically its young scientists The first part of the book provides background on the state of science in Africa and bibliometric findings concerning Africa's scientific production and networks for the period 2005 to 2015 The second part of the book combines the findings of a large scale quantitative survey and more than 200 qualitative interviews to provide a detailed profile of young scientists and the barriers they face in terms of five aspects of their careers research output funding mobility collaboration and mentoring In each case field and gender differences are also taken into account The last part of the book comprises

conclusions and recommendations to relevant policy and decision makers on desirable changes to current research systems in Africa
