**Methods and Materials for Teaching the Gifted** Frances A. Karnes, Suzanne M. Bean, 2021-09-23 The newly revised and updated fourth edition of Methods and Materials for Teaching the Gifted is an excellent introduction to gifted education and real world learning. The chapters of this comprehensive textbook are written by respected leaders in the field of gifted education. The authors review the unique needs of gifted learners and give current information on instructional planning and evaluation strategies for best practices and ongoing enhancement and support of gifted programs. Chapters include topics such as differentiated curricular design, extending learning through research writing, challenging instructional units, and developing leadership skills and innovative thinkers. Instructional practices such as problem based learning, technology literacy, independent study, simulation, and gaming, and more are addressed. A special focus is given to using the Gifted Education Programming Standards and Common Core State Standards. The fourth edition provides updated information on funding sources and public relations strategies for gifted education programs. It also includes updated lists of books, teaching materials, websites, and other resources for teachers of the gifted. *Handbook of Giftedness in Children* Steven I. Pfeiffer, 2018-06-09

In one comprehensive resource, this superb handbook covers everything you need to know about the subject. It brings together leading experts from the fields of psychology and education, combining theory and applied empirical research on such crucial topics as conceptualization, types of intelligence, developmental considerations, and ethical and legal concerns. Particular attention is given to social and family contexts, and evidence-based strategies and interventions offer solid guidelines on assessment, curriculum design, and encouraging and nurturing talent from preschool through adolescence. *Introduction to Curriculum Design in Gifted Education* Kristen R. Stephens, Frances A. Karnes, 2021-09-03

Gifted students require a curriculum that intentionally aligns with their advanced abilities to ensure engagement at the appropriate level of intensity and depth. *Introduction to Curriculum Design in Gifted Education* offers an in-depth exploration of curriculum development for the gifted. Included are the general foundations of good curriculum design, a survey of curriculum models appropriate for gifted learners, an examination of design considerations across content areas, a detailed analysis of the role assessment has in the curriculum development process, and an exploration of trends and future directions of curriculum development for the gifted. Each chapter is authored by experts with considerable knowledge pertaining to curriculum implications for gifted students and is written with the practitioner in mind to facilitate effective implementation. This text is an essential addition to the library of any educator seeking to create new and/or adapt existing curriculum to better address the interests and abilities of gifted students. *Designing Gifted Education Programs and Services* Scott J. Peters, Dina Brulles, 2021-09-23 This book is intended to support educators in the design and implementation of comprehensive gifted education plans. From planning to actual implementation, this book takes the reader from goals and purpose to assessing student needs and program design. The authors begin with a broad overview of best practices in

programming and services highlighting connections to student needs programming standards and state laws Their recommendations include philosophical cultural and practical considerations and data based decision making In this book Peters and Brulles guide the reader through the process of determining the most optimal programming methods for schools to take based on their individual needs and circumstances With this book schools will be able to design and develop programs and or services that lay the foundation necessary to ensure all students are appropriately challenged
