## DO'S

- choose a fast that fits your life and goals
- drink water and electrolytes during the fast
- eat protein, fat and fiber when you break your fast
- be consistent, but adjust the schedule as needed
- exercise (but ease into it)

## DON'TS

- just skip breakfast
- use extended fasts as a "reset" from a "cheat day"
- drink multiple cups of coffee to get you through your fast
- snack
- break your fast with high glycemic, low protein meals

Data from the UK show 1 in 124 obese women get results using this method meaning the nutrition guidelines some professionals are following have a 99.5% fail rate. A quick goggle of what happened to the contestants on the hit TV series The Biggest Loser should be enough to put you off this method. This show is a classic example of why moving more and eating less only works in the short term if at all. There is a reason there are few reunion shows. So why are low calorie diets flawed? A study on 14 contestants on the biggest loser show revealed some alarming results six years after filming had finished. The initial results were impressive but as the study showed they were short lived. Below are results of some of the factors tested. Weight Average weight before filming 328 lb / 148 kg. Average weight after 30 weeks on the show 199 lb / 90 kg. Average weight six years after final 290 lb / 131 kg. As you can see contestants lost a massive amount of weight during filming but struggled to maintain the weight loss over a long period of time. Download Now To find out why the contestants couldn't keep the weight off and how to prevent it happening to you [\*Complete Guide to Intermittent Fasting\*](#) Moore Christine, 2019-11-02 Discover how to eat the foods you want and continue to lose weight and burn fat. The days of following a strict weight loss diet is over and welcome to the world of intermittent fasting. The truth is many weight loss diet plans or regiments aren't long term solutions. It's no secret that weight loss is difficult but maintaining the pounds shed is what most people struggle with. I have no doubt many of you have heard of South Beach, Weight Watchers, Atkins and other weight loss diets. What they all have in common is they make you stomach bland foods you have no desire to eat. Again this is not a long term solution and you are stuck day dreaming on you can rid yourself of these diets after you've accomplished your health goals. So what's the solution? Well it's an eating schedule that allows you to eat when it's time to eat and not eat when the window is over. It's that simple. Noticed I said eating schedule knowingly called intermittent fasting and not a diet plan. This allows you to finally eat the foods you want and continue to shed off the excess weight. Learn how with this book. The goal of the book is simple: teach you how to get started on an intermittent fast as a long term weight loss solution. You will learn Many different fasting regiments for different life styles. Simple strategies to maintain the fast and negate hunger. Techniques to avoid over eating during the eating window. Simple habits to follow to prevent you from falling off the band wagon. The benefits of fasting and why it's the long term solution you've been looking for. This book is tailored to be concise and direct so you can see results immediately. Inside you will find practical science back information and how you can get started right now with intermittent fasting.
