Mental Health Carl Walker,Angie Hart,Paul Hanna,2017-03-31 This book provides a much needed account of informal community based approaches to working with mental distress It starts from the premise that contemporary mainstream psychiatry and psychology struggle to capture how distress results from complex embodied arrays of social experiences that are embedded within specific historical cultural political and economic settings The authors challenge mainstream understandings of mental health that position a naive public in need of mental health literacy Instead it is clear that a considerable amount of invaluable mental distress work is undertaken in spaces in our communities that are not understood as mental health treatments This book represents one of the first attempts to position these kinds of spaces at the center of how we understand and address problems of mental distress and suffering The chapters draw on case studies from the UK and abroad to point toward an exciting new paradigm based on informal community and socially oriented approaches to

mental health Written in an unusually accessible and engaging style this book will appeal to social science students academics practitioners and policy makers interested in community and social approaches to mental health The Handbook of Mental Health and Space Laura McGrath,Paula Reavey,2018-09-19 The Handbook of Mental Health and Space brings together the psychosocial work on experiences of space and mental distress making explicit the links between theoretical work and clinical and community practice The change from an institutional to community care model of mental health services can be seen as a fundamental spatial change in the lives of service users and the book aims to stimulate discussion about mental healthcare spaces and their design With contributions from those involved in theorizing space those drawing on their own experiences of distress and space as well as practitioners working on the ground the book will be of interest to mental health practitioners and academics Crowding and Children's Mental Health Ying-cheng Lu,1997
