renowned paper of Dyreng et al published in 2016 Corporate effective tax rates have considerably declined over the period of 1988-2021. Both purely domestic firms and multinationals have seen a decline in effective tax rates with domestics having lower mean effective tax rates than their internationally operating peers. Moreover, both foreign and domestic effective tax rates have decreased for multinationals. Little of the decrease in effective tax rate can be explained by analysing the impact of firm characteristics and tax legislations.

**Why States Matter** Gary Moncrief, Peverill Squire, 2013-08-28. When it comes to voting taxes, environmental regulations, social services, education, criminal justice, political parties, property rights, gun control, marriage, and a whole host of other modern American issues, the state in which a citizen resides makes a difference. The idea that states matter is the fundamental concept explored in this book by accomplished scholars and authors Gary Moncrief and Peverill Squire, and has been an essential truth embedded within America's governing philosophy since the Colonial Era. Considerably less attention is paid to the gritty but essential political battles fought at the level of America's states than to the endless and infamous turmoil inside the beltway, but the political decisions made by those in state-level offices are of tremendous importance to the lives of people whose states they govern. This book introduces students to the very tangible and constantly evolving implications, limitations, and foundations of America's state political institutions and accessibly explains the ways that the political powers of the states manifest themselves in the cultures, economies, and lives of everyday Americans and always will.
