TIME TRACKER (25 MIN INTERVALS)

TARGET:

TOMORROW:

The figure displays a 10x10 grid of 100 small line plots. Each plot shows a time series with a unique pattern of peaks and troughs, representing various data series. The plots are arranged in a regular grid, with each plot having its own x and y axes. The x-axis for each plot represents time, and the y-axis represents the value of the time series. The patterns of the time series vary significantly, with some showing sharp peaks, others showing gradual increases, and some showing complex, non-linear behavior. The overall layout is clean and organized, with the plots clearly separated from each other.
