the program weekly A score of 80% or higher indicates student mastery These assessments offer the opportunity for  
summative assessment as students are graded on their knowledge of previously taught skills and concepts Benchmark  
Assessment features tests of equivalent difficulty that sample the yearlong curriculum to gauge student growth Improving  
scores on these assessments indicate students increasing mastery of the content This assessment acts as a universal screener  
of student growth Progress is measured against benchmark cutoff scores Cutoff scores rise as student knowledge grows and  
help to point out gaps between student achievement and the curriculum based goals These two assessments offer valuable
