Malware Forensics Field Guide for Linux Systems Eoghan Casey, Cameron H. Malin, James M. Aquilina, 2013-12-07

Malware Forensics Field Guide for Linux Systems is a handy reference that shows students the essential tools needed to do computer forensics analysis at the crime scene. It is part of Syngress Digital Forensics Field Guides, a series of companions for any digital and computer forensic student investigator or analyst. Each Guide is a toolkit with checklists for specific tasks, case studies of difficult situations, and expert analyst tips that will aid in recovering data from digital media that will be used in criminal prosecution. This book collects data from all methods of electronic data storage and transfer devices, including computers, laptops, PDAs, and the images, spreadsheets, and other types of files stored on these devices. It is specific for Linux-based systems where new malware is developed every day. The authors are world-renowned leaders in investigating and analyzing malicious code. Chapters cover malware incident response, volatile data collection and examination on a live Linux system, analysis of physical and process memory dumps for malware artifacts, post mortem forensics, discovering and extracting malware, and associated artifacts from Linux systems, legal considerations, file identification and profiling, initial analysis of a suspect file on a Linux system, and analysis of a suspect program. This book will appeal to computer forensic investigators, analysts, and specialists. A compendium of on-the-job tasks and checklists. Specific for Linux-based systems in which new malware is developed every day. Authors are world-renowned leaders in investigating and analyzing malicious code.

European Building Construction Illustrated Francis D. K. Ching, Mark Mulville, 2014-02-10. The first European edition of Francis DK Ching's classic visual guide to the basics of building construction. For nearly four decades, the US publication *Building Construction Illustrated* has offered an outstanding introduction to the principles of building construction. This new European edition focuses on the construction methods most commonly used in Europe, referring largely to UK Building Regulations overlaid with British and European while applying Francis DK Ching's clear graphic signature style.
