Glenn Gould Mark Kingwell, 2009 Glenn Gould one of the twentieth century s most renowned classical musicians was also known as an eccentric genius solitary headstrong a hypochondriac virtuoso Abandoning stage performances in 1964 Gould concentrated instead on mastering various media recordings radio television and print His sudden death at age fifty stunned the world but his music and legacy continue to inspire Philosopher and critic Mark Kingwell regards Gould as an innovative thinker whose ideas about music governed his life But those ideas were contradictory mischievous and deliberately provocative Just as Gould played twenty one takes to record the opening aria in the famed 1955 Goldberg Variations Kingwell offers twenty one takes on Gould s life Each version offers a different interpretation of the man but in each Kingwell is sensitive to the complex harmonies and dissonances that sounded throughout the life of the great Gould

The Surface of Meaning Robert Bringhurst, 2008 The design and manufacture of books can tell as much about a people or a culture as the ambience of its streets and the architecture of its buildings In our everyday lives books surround us even if we are among the many who never read another one after high school Their very jacket design asks us to make meaning of their presence and when we open them the layout of words and stories within their covers makes us readers even before we begin to read To Robert Bringhurst typographer poet and writer the presence of books and the story of books in Canada are preludes to understanding our culture From the tattered book of Canadian poetry your moody cousin carried everywhere to the pristine hardcover book of Atwood s latest work in your brainy co worker s hands book design says much about who and where we are as Canadians In The Surface of Meaning Robert Bringhurst takes us on another of his walking tours this time through the bramble of English and French Canadian books and book design from the mid 18th Century to the present day Along the way he discovers a true image trove of identity culture and history And he does what no other work on books and publications does He creates a truly national survey of Canadian books by bringing Canada s long history of Aboriginal story telling into a context of book It is a context that goes into the depths of our prehistory far beyond the printed page The Surface of Meaning is a tribute to Canadian books and publishing It is irresistible to readers who love books as well as to designers and others who may simply prefer to look at them

Interdisciplinary Measures Graham Huggan, 2008 Where now for postcolonial studies That is the central question in this new volume from one of the field s most original thinkers Huggan s answer is interdisciplinarity and here he sets out a series of conversations between literary studies and other disciplines notably geography environmental studies history and anthropology Huggan aims to establish an alternative trajectory through the field of postcolonial literary cultural studies that is alert to similar
