Children of the Calling Eric Nelson Newberg, Lois E. Olena, 2014-12-23 This volume of essays dedicated to Stan and Ruth Burgess has been written by their colleagues and students to honor them as they retire after many years of distinguished service to Evangel University Southwest Missouri State University and Regent University Several meanings can be subsumed under the title Children of the Calling Stan and Ruth grew up in India children of Pentecostal missionaries who felt they had divine callings They were influenced not only by the religious callings of their parents but also by the cultural milieu of India Though they did not personally take on board the specific missionary calling of their parents they charted life maps that benefitted from the cross cultural proficiencies developed in their childhoods in India which to a large extent colored the influence they would have on their children academic colleagues and students some of whom have submitted essays for this Festschrift The diversity of subjects in this volume attests to the breadth of the scholarly work of Stan and Ruth Burgess The first section narrates the major highlights of Stan and Ruth s academic biographies the second presents pioneering studies of biblical studies and church history and the third offers application based research and personal reminiscences

Thinking about the Teaching of Thinking Dorothy R. Howie, 2019-08-06 Thinking about the Teaching of Thinking provides an accessible and comprehensive introduction to Feuerstein s theory of Mediated Learning Experience and its related tools and programmes It details up to date international and New Zealand research on the Feuerstein approach which reflects the current issues in the teaching of thinking The book begins by defining what is meant by the teaching of thinking and provides an easy to understand explanation of the Feuerstein method and its value for children with learning challenges It champions a whole school approach to the teaching of thinking and details the practical tools and programmes developed by Feuerstein such as Instrumental Enrichment and the Learning Propensity Assessment Device to aid in its implementation It also recognises the key importance of cultural factors in the teaching of thinking bringing together the author s considerable research experience using the Feuerstein method in the multicultural New Zealand context with her extensive knowledge of international Feuerstein research This book provides a user friendly and unique coverage of the Feuerstein method for researchers and postgraduate students researching and working in educational psychology It will also be of great value for teachers and parents looking to understand and decide on implementation of the Feuerstein approach in their schools

An Autism Casebook for Parents and Practitioners Shoshana Levin Fox, 2020-12-29 Drawing from the author s extensive clinical experience this autism casebook offers stimulating reflections and a fresh perspective on how we assess diagnose and ultimately treat young children thought to be autistic Challenging what she perceives as the rampant over diagnosis and misdiagnosis of autism and the commonly accepted status of autism as an unchangeable trait Dr Levin Fox illustrates how the developmental play strategies of

DIRFloortime combined with the creative psychological perspective of Reuven Feuerstein create an effective way of identifying the child's strengths behind the autistic symptoms. The chapters are an accessible mix of clinical insights, theoretical reflections and vivid case stories that argue and illustrate that qualitative assessment methods based on play have the power to yield a more accurate clinical understanding of a child's difficulties and strengths than conventional symptom-focused autism assessment methods. This engaging casebook will stimulate practitioners, educators and students in the field of autism to question commonly held assumptions when assessing and treating autistic children as it both urges and illustrates more reflective practice. Parents of children considered autistic will find renewed encouragement and hope in these enlightening case stories.

SEND Intervention Judith Carter, 2022-02-27. The second in The Essential SENCO Toolkit series, this resource clarifies and explores the key distinctions between quality first teaching, adjustments, resources, support and interventions. It allows practitioners to develop their practice effectively and strategically to capture the true impact of SEND provision by shifting the focus from the who and when to the what and why. Chapters also include original frameworks: the 4 Functions of Learning Support to help with the deployment of teaching assistants and to provide a shared language of support, as well as resources that support the application of the 7 Cs Learning Portfolio introduced in the first book in the series. SEND Assessment and an intervention index to fully understand the purpose and effectiveness of interventions. Key features offered: An introduction to the 4 Functions of Learning Support providing a measurable language of learning support to help practitioners to organise and deploy teaching assistants as part of their SEND provision. An intervention index to enable individual or MAT-based SENCOs to capture their own evidence base regarding the purpose and impact of interventions. Intervention action cards and targeted outcomes for all 49 themes within the 7 Cs Learning Portfolio. A photocopiable and downloadable programme of materials that can be used by readers to gain a better understanding of interventions. SEND Intervention will promote confidence and clarity regarding the rationale for SEND provision. This essential resource provides a practical toolkit to support both new and experienced SENCOs and SEN practitioners.

Bridging Learning Mandia Mentis, Marilyn Dunn-Bernstein, Marténe Mentis, Mervyn Skuy, 2009-05-21. This updated volume provides fourteen core thinking skills that increase students' cognitive capacity and shows educators how to bridge these skills to the home and community.

Beyond Smarter Reuven Feuerstein, Refael Feuerstein, Louis H. Falik, 2015-04-25. Originally developed to help students overcome learning obstacles created by emotional trauma or neurobiological learning disabilities, Reuven Feuerstein's work is now used in major cities around the world to support improved thinking and learning by all students. This book is the most up-to-date summary of his thinking and includes accessible descriptions of his tools and methods for cognitive modifiability and mediated learning. With dramatic case studies throughout the text, Feuerstein and his co-authors define intelligence as a dynamic force that drives the human organism to change the structure of thinking in order to answer the needs it encounters. They describe in detail the specific skills of the

three stages of thinking input or observation and data gathering stage development or processing stage and output stage including analysis synthesis and communication They show how student thinking can stall in multiple ways at any of these stages and how intentional mediation can help students restructure their thinking and improve their ability to learn Similarly to cognitive mediated learning the authors address mediation of social and emotional skills that impact learning **The Cognitive Enrichment Advantage Teacher Handbook** Katherine H. Greenberg, 2005 The Cognitive Enrichment Advantage Teacher Handbook provides a theoretical framework teachers can use to help their students learn how to learn It builds upon an open and safe classroom atmosphere where students are encouraged to focus on the process of learning at least as much as the product The Handbook explains how teacher mediators employ guided discovery to help students socially construct a shared vocabulary as they focus on developing personal learning strategies The approach is based upon theory and research showing how cognitive enrichment can help develop flexibility in thinking This flexibility together with an understanding how feelings and motivation influence learning can help every student become a more effective life long independent and interdependent learner The approach has been used most often with marginalized students from preschool through adults in more than six countries *Mediated Learning and Cognitive Modifiability* David Tzuriel, 2021-09-07 This book portrays an extensive and intensive discussion of theories and research that refer to Vygotsky's and Feuerstein's theories of mediated learning and their effects on learning potential and cognitive modifiability Most topics are discussed in relation to a broad spectrum of developmental and cognitive research that are under the conceptual umbrella of mediated learning and cognitive modifiability Some topics such as neural plasticity executive functions mental rotation and cognitive education are related to mediated learning though indirectly and therefore are included in this book In many ways the book presents an extension of Vygotsky and Feuerstein's theories and empirical validation in a variety of family social and cultural contexts The book includes a thorough analysis and summary of 50 years of research and methodology of the intimate relation between mediated learning interactions and cognitive modifiability and of dynamic assessment underlying measurement of cognitive modifiability Special emphasis is given to Tzuriel's dynamic assessment instruments developed during more than four decades Tzuriel's novel instruments are interwoven in the extensive research on parent child interactions siblings teachers and peers mediation and in validation of dynamic assessment approach and cognitive education programs aimed at development of thinking skills and academic achievements *Current Index to Journals in Education*, 1998-10 [The Mediated Learning Experience in Action](#) Rachel Rosen, 2019-01-30 This book is a hands on description of the application of the methods developed by Professor Reuven Feuerstein to remediate and elaborate the skills and functions of young children who are experiencing a variety of learning disabilities and delays based on his theories of structural cognitive modifiability SCM and the application of mediated learning experience MLE The lead author is an experienced educational therapist who has worked with a variety of children initially in the Feuerstein Institute formerly the International

Center for the Enhancement of Learning Potential ICELP in Jerusalem Israel This experience under the supervision of Professor Feuerstein and his staff is the basis for the content of this book Her case studies have been elaborated to illustrate examples of the creative potential in the application of the methodology incorporating mediated learning experience MLE into learning activities designed to be effective with a variety of learning dysfunctions The chapter format highlights important insights in identifying difficulties and resolving them This book describes how MLE can be used to formulate insightful and creative interventions that make a difference through the structural cognitive modifiability of very low functioning children After initial chapters establish the theoretical and conceptual foundations of the Feuerstein approach the subsequent chapters present interventions provided for children presenting a variety of learning difficulties The book will be appropriate for several potential audiences 1 teachers and parents who interact with special needs children and who are seeking effective interventions to improve educational performance 2 clinicians seeking a broadening of their therapeutic repertoires and 3 scholars who are familiar with or wishing to gain understanding of the implementation of structural cognitive modifiability SCM and mediated learning experience MLE that was formulated and elaborated by Professor Feuerstein

Changing Minds and Brains - The Legacy of Reuven Feuerstein Reuven Feuerstein, Louis H. Falik, Refael S. Feuerstein, 2014-12-01 Decades before educators began to draw teaching and learning implications from neuroscientists groundbreaking findings on brain plasticity Reuven Feuerstein had already theorized it and developed practices for teaching and developing higher level cognition and learning for all students even those with Down syndrome and other learning disabilities His mediated learning enrichment instruments and dynamic assessment are used in urban districts in the United States and around the world to raise student achievement success levels and self regulation In this final work Feuerstein provides a first person reflective narrative of the implementation of mediated learning experience MLE past and present including stories new insights observations and newly formulated concepts on MLE and how it contributes to higher level thinking and overcoming disability Featuring both educational and clinical case examples it offers a more detailed picture of the practical applications than any other publication to date Those familiar with Feuerstein's methods will find this book an important resource in deepening their knowledge It is also essential reading for all educators looking for approaches that promote thinking skills that improve educational outcomes for diverse learners

Mediated Learning In and Out of the Classroom Cognitive Research Program, 1999-06-01 Illustrates Reuven Feuerstein's theory of mediated learning that intelligence is modifiable when a caring adult works one on one with a child to lay the foundation for learning

Mediated Learning in and Out of the Classroom, 1996

Teaching Students to Drive Their Brains Donna Wilson, Marcus Conyers, 2016-06-28 Research suggests that metacognition is key to higher student achievement but studies of classroom practice indicate that few students are taught to use metacognition and the supporting cognitive strategies that make learning easier You can teach metacognition to your students so why wouldn't you This book shows you how Metacognition is

a tool that helps students unlock their brain s amazing power and take control of their learning Educational researchers and professional developers Donna Wilson and Marcus Conyers have been exploring and using the explicit teaching of metacognition for years and in this book they share a practical way to teach preK 12 students how to drive their brains by promoting the following practices Adopt an optimistic outlook toward learning Set goals Focus their attention Monitor their progress and Engage in practices that enhance cognitive flexibility Wilson and Conyers explain metacognition and how it equips students to meet today s rigorous education standards They present a unique blend of useful metaphors learning strategies and instructional tips you can use to teach your students to be the boss of their brains Sample lessons show these ideas in a variety of classroom settings and sections on professional practice help you incorporate these tools and share them with colleagues and parents so that you are teaching for and with metacognition *Metacognitive and Cognitive Skills Training Via Mediated Learning Experiences* Michael D. Hamlin,1985 *Learning Intelligence* Michael Shayer,Philip Adey,2002 At present few children realise their true potential This work describes how children s general ability to process information their intelligence can be significantly improved by appropriate cognitive acceleration methods **What Learning Looks Like** Reuven Feuerstein,Ann Lewin-Benham,2015-04-17 The authors bring to life the theory of mediated learning Through numerous examples and scenarios from classrooms and museums they show how mediated learning helps children to become more effective learners from publisher description
