Oversight Representing The Interests Of Blacks And Latinos In Congress:

Congress in Black and White Christian R. Grose, 2011-01-31 The symbolic importance of Barack Obama's election is without question. But beyond symbolism, does the election of African American politicians matter? Grose argues that it does and presents a unified theory of representation. Electing African American legislators yields more federal dollars and congressional attention directed toward African American voters. However, race and affirmative action gerrymandering have no impact on public policy passed in Congress. Grose is the first to examine a natural experiment and exceptional moment in history in which black legislators, especially in the U.S. South, represented districts with a majority of white constituents. This is the first systematic examination of the effect of a legislator's race, above and beyond the effect of constituency racial characteristics. Grose offers policy prescriptions, including the suggestion that voting rights advocates, the courts, and redistricters draw black decisive districts, electorally competitive districts that are likely to elect African Americans.

Representing the Advantaged Daniel M. Butler, 2014-07-14 This book argues that a significant amount of bias in representation traces its roots to the information, opinions, and attitudes that politicians bring to office. It suggests that even if all voters participated equally, there would still be significant levels of bias in American politics because of differences in elite participation.

Grassroots and Coalitions Michael Mitchell, David Covin, 2013-09-06 The main focus of this volume is an exploration of the patterns of competition for political power at the state and local levels in American politics. This volume looks at institutionalized patterns of black political power as they have evolved in the aftermath of the civil rights movement in the 1960s. The editors argue that enough time has elapsed to warrant a new look at the circumstances in which black politics in America has played out. Chapters include an examination of the ability of black candidates to win statewide elections with crucial white support; an analysis of the impact of local political organizations in enhancing the chances of black candidates in winning local races; a look at the messages of black pastors regarding solidarity with the Latino community; and an investigation of the extent of the differences in the political participatory styles of poor blacks and poor whites. The editors note that changes have taken place as black American politics has confronted new complexities. A works in progress section explains how theories of racial violence can be used to analyze racial incidents in the United States. Other essays include reflections on blacks in Brazil and in urban American politics.

Latino Politics En Ciencia Politica Tony Affigne, Evelyn Hu-DeHart, Marion Orr, 2014-04-25 More than 53 million Latinos now constitute the largest, fastest growing, and most diverse minority group in the United States, and the nation's political future may well be shaped by Latinos' continuing political incorporation. In the 2012 election, Latinos proved to be a critical voting bloc in both Presidential and Congressional races. This demographic will only become more important in future American elections. Using new evidence from the largest ever scientific survey addressed exclusively to Latino/Hispanic respondents, *Latino Politics en Ciencia Politica* explores political diversity within the Latino community, considering how intra-community differences influence political

behavior and policy preferences The editors and contributors all noted scholars of race and politics examine key issues of Latino politics in the contemporary United States Latino a identities latinidad transnationalism acculturation political community and racial consciousness The book contextualizes today s research within the history of Latino political studies from the field s beginnings to the present explaining how systematic analysis of Latino political behavior has over time become integral to the study of political science Latino Politics en Ciencia Pol tica is thus an ideal text for learning both the state of the field today and key dimensions of Latino political attitudes *Exploring the C-SPAN Archives* Robert X. Browning, 2015-11-15 Exploring the C SPAN Archives is a collection of path breaking research studies that use video drawn from the C SPAN Archives The book based on the papers presented at a November 2014 conference includes chapters that explore issues in presidential debates minority representation the presentation of the first ladies stem research and innovative ways to analyze video The book is divided into five parts Part 1 consists of an overview of and common scholarship using the C SPAN Archives and how this research advances the conversation after previously published studies Featured are the ways in which the collection is indexed and tips on how individuals can find particular materials This section is essential for increased scholarship and pragmatic applications Part 2 contains applied research using the video collection Topics in this section include a look at oral histories of minority members of Congress an analysis of presidential debates and the presentation style of Michelle Obama Part 3 is focused on STEM research including concepts and contradictions in the debate over STEM initiatives expertise and evidence in science presentations in the C SPAN Archives and the framing of technology issues in a C SPAN television series The Communicators Part 4 presents innovative research using C SPAN and new computer technology Two scholars take different technical approaches to evaluate polarization and communication using audio levels and video images Finally in Part 5 David Caputo presents ideas on the value of massive open online courses MOOCs using C SPAN and reflects on the use of C SPAN for citizen education in what he terms the postdigital world Additionally Patrice Buzzanell contributes a reflective essay on the future directions of research using the C SPAN Archives based on the essays in this volume Oversight Michael D. Minta, 2011-08-08 Oversight answers the question of whether black and Latino legislators better represent minority interests in Congress than white legislators and it is the first book on the subject to focus on congressional oversight rather than roll call voting In this important book Michael Minta demonstrates that minority lawmakers provide qualitatively better representation of black and Latino interests than their white counterparts They are more likely to intervene in decision making by federal agencies by testifying in support of minority interests at congressional oversight hearings Minority legislators write more letters urging agency officials to enforce civil rights policies and spend significant time and effort advocating for solutions to problems that affect all racial and ethnic groups such as poverty inadequate health care fair housing and community development In Oversight Minta argues that minority members of Congress act on behalf of broad minority interests inside and outside their districts because

of a shared bond of experience and a sense of linked fate He shows how the presence of black and Latino legislators in the committee room increases the chances that minority perspectives and concerns will be addressed in committee deliberations and also how minority lawmakers are effective at countering negative stereotypes about minorities in policy debates on issues like affirmative action and affordable housing *No Longer Outsiders* Michael D. Minta,2021-07-12 How effective are civil rights organizations in lobbying Congress They lack the resources of wealthier business funded lobbying groups And yet these groups have been able to influence Congress in order to pass legislation and pressure agencies in the service of minority communities In *No Longer Outsiders* Black and Latino Interest Group Advocacy on Capitol Hill Michael D Minta explores the ways that civil rights groups representing a range of racial and ethnic minorities achieve success in Congress Minta shows how increasing diversity in the House of Representatives plays an important role in the success of civil rights organizations These organizations gain power and respect in part because they indeed represent the interests and views of their minority groups The organizations from different ethnic and racial groups successfully cooperate on legislation and work closely with groups like the Congressional Black and Latino Caucuses to get a place at the legislative table **Gender, Race, and Office Holding in the United States** Becki Scola,2013-12-04 Over the past several decades the number of women elected to higher office in the United States has grown substantially However when the electoral gains of women are considered on a state by state basis there are observable variations in the rate by state at which women are elected to state legislative office Scholars have noted an additional variation in women office holders that women of color serve at higher rates than white women Becki Scola s book provides an explanation for these two interrelated puzzles on electoral gender gaps She examines the factors surrounding the uneven proportional distribution of female legislators and then explores why gender appears to be an advantage for women of color office holders Through an examination of the divergent state level institutional and environmental conditions Scola maps out the factors that contribute to more or less female legislative service and how race ethnicity intersects with these conditions She reveals that the common conceptions and theories that help us understand women s office holding in general do not equally apply to both white women and women of color s legislative service The first book length study to analyze how race informs gender in terms of patterns of office holding *Gender Race and Office Holding in the United States* provides insight into both underrepresentation in general as well as the underlying dynamics of representation within specific groups of women Congressional Record United States. Congress,2008 Hispanic Link Weekly Report ,2003 **Race, Poverty & the Environment** ,1990 Broadcasting ,1981-06 *Renewable Energy and the City* United States. Congress. House. Committee on Banking, Finance, and Urban Affairs. Subcommittee on the City,1979 *California* David G. Lawrence,2000 This text offers a thematic comprehensive look at California politics written from the perspective of someone who teaches California Politics and has worked in local government **Television Industries** Douglas Gomery,Luke Hockley,2006-05-31 While not a production study this book

attempts to provide an insight into the inner workings of the television industry As such its central concern is with processes not texts or techniques or histories Television Industries focuses on the essential elements of the industry the policy and regulatory frameworks the swiftly changing world of video production technology all of which provides the backdrops against which broadcasters shape and sell their products The book also examines the working practices of scheduling budgeting selling advertising air time and so forth Where issues may be familiar to readers for example debates around public service broadcasting the entries aim to be explanatory and fresh Of course it s not possible to cover every aspect of what is a complex and ever changing industry Nonetheless the aim is to provide a starting point for students and new scholars as they start to research into the nature of the broadcasting industry Hence this volume is extensively cross referenced to guide the reader as they tease out for themselves some of the complexity of this industry There are several other elements that are distinctive about this volume Perhaps the most striking of these is its blend of contributions from the UK and US This book will raise as many questions as it provides answers It aims to make a contribution to the on going debates in the now well established world of television studies with fresh perspectives on some familiar and some not so familiar landscapes Fully illustrated Television Industries is intended as an authoritative and accessible guide to the inner workings of the television industry **Encyclopedia of Multiculturalism, Supplement: 1998 . America's Children at Risk ABA Presidential Working Group on the Unmet Legal Needs of Children and Their Families,1993 *Rights* ,1995 The Economist ,2002 **No Longer Outsiders** Michael D. Minta,2021-07-12 With the rise of Black Lives Matter and immigrant rights protests critics have questioned whether mainstream black and Latino civil rights organizations such as the NAACP and UnidosUS are in touch with the needs of minorities especially from younger generations Though these mainstream groups have relied on insider political tactics such as lobbying and congressional testimony to advocate for minority interests Michael D Minta argues that these strategies are still effective tools for advocating for progressive changes In No Longer Outsiders Minta provides a comprehensive account of the effectiveness of minority civil rights organizations and their legislative allies He finds that the organizations legislative priorities are consistent with black and Latino preferences for stronger enforcement of civil rights policy and immigration reform Although these groups focus mainly on civil rights for blacks and immigration issues for Latinos their policy agendas extend into other significant areas Minta concludes with an examination of how diversity in Congress helps groups gain greater influence and policy success despite many limits placed upon them
