We expect that the physical theory of gravitation as developed by the general and the quantum mechanics is consistent and is applied uniformly throughout the theory of gravitation in the form of the *Principle of Equivalence*. The districts in particular became more civilianized governments. As the basis of the empire's administration, the *Reichsbeamten* districts proved wholly fit. The civilianized administration, however, had the disadvantageous tendency to become rigid and ossified. The grammar is based on the Provençal of the 13th century, and is intended to give a clear and accurate knowledge of the language as it was then spoken, and to show the development of the language from that time to the present day. The grammar is divided into three parts: 1. The Provençal of the 13th century, 2. The Provençal of the 14th century, and 3. The Provençal of the 15th century. The grammar is intended to give a clear and accurate knowledge of the language as it was then spoken, and to show the development of the language from that time to the present day.
