A Parent's Guide to the Internet Natalie Walker Whitlock, 2003 Called the most important human invention since fire, the Internet has rapidly transformed our society. For the children of today, there has never been a world without the Internet; it is as much a part of normal life as trips to the library were for their parents. Readers do not need any special background or experience with the Internet to get the full benefit of this book. **A Parent's Guide to the Internet**, 2nd Edition, offers readers fun educational projects to do with their children as well as background information on websites, email, instant messaging, chat rooms and more. The American Library Association calls the book "An imaginative and valuable resource." Book jacket: [Internet Governance for Sustainable Human, Economic and Social Development](#) Internet Governance Forum Meeting, 2013 Each year the IGF Secretariat produces a book to provide a concise yet comprehensive summary of the proceedings that take place at the annual global IGF gatherings. Included herewith are edited transcripts of all of the main sessions that took place over the four days in Baku and the reports of the workshops and other events that were submitted appropriately. The theme of the forum for the seventh meeting was Internet Governance for Sustainable Human, Economic and Social Development. As per standard IGF practice, the entire meeting was webcasted and the possibility of remote participation was offered, which doubled the active participation in both main sessions and workshops and other events throughout the week. Real-time transcription was also available to enhance the participatory experience for those present in Baku and around the world. *Maximum Rocknroll*, 2006
