Digital Scholarship in the Tenure, Promotion and Review Process Deborah Lines Andersen, 2015-04-15 To receive tenure college and university professors have long been required to write scholarly monographs or articles engage in serious research and teach effectively In recent years however the emergence of digital scholarship has revolutionized and complicated the picture in unexpected ways as new electronic media have enabled academics to communicate scholarly material in innovative formats such as websites PowerPoint presentations CD ROMs and virtual reality tours Despite this growing output of sophisticated digital scholarship there has been little attempt to set standards define basic issues and concepts or integrate electronic scholarship into the tenure debate This collection of cutting edge articles marks the first effort to evaluate the place of digital scholarship in the tenure promotion and review process As a primer aimed at scholars faculty members and department chairs in the humanities social sciences and other fields as well as deans provosts and university administrators this collection examines the evolution of nontraditional scholarship analyzes the various formats and suggests guidelines for assessment on a scholarly level It also examines the impact of digital scholarship in the classroom and academy and explores new directions for the future This book will help shape policy in the murky world of tenure review and could become a central text for scholars and administrators everywhere

Academic Promotion for Clinicians Anne Walling, 2017-11-10 This book is a practical guide to the appointment promotion and tenure APT process for clinical faculty members employed by medical schools The number of clinical faculty members in US medical schools has increased exponentially in the last two decades At the same time faculty career tracks and promotion requirements have changed dramatically and medical schools have introduced multiple non tenure career tracks Currently only about 25% of the approximately 150 000 members of clinical departments This book provides insights and recommendations on career planning and academic promotion for clinical faculty members It also addresses much of the mythology surrounding the APT process and demonstrates how academic promotion should be used as a career building process rather than a daunting high risk event Topics include concepts and processes within academic promotion navigating the academic promotion and tenure process and managing the outcome of the APT application Academic Promotion for Clinicians is a valuable resource for clinical medicine faculty members as they engage in and successfully handle the challenges in the APT process and thus realize their career goals
