Hello Citizen,

Welcome to 2955! We hope you enjoyed the holiday season, whether you spent it among friends, family, or the outlaws of Pyro. We closed out last year by releasing the Alpha 4.0 Preview, and we've been closely monitoring gameplay data, reviewing feedback, and rolling out a variety of hotfixes and adjustments to improve the experience with more to come!

As seen in the recent [Letter from the Chairman](#), improving Star Citizen's overall playability is now our top priority. So, we're starting 2955 on the right foot by making a fundamental change: decoupling feature development from content creation and general fixes. Keep an eye on Spectrum for more updates as Alpha 4.0.1 moves through the PTU.

More from this week: Ready your engines for the Daymar Rally, kicking off next week on Saturday, January 18!

Strategic Innovative Marketing Damianos P. Sakas, Dimitrios K. Nasiopoulos, 2019-05-25 This proceedings volume highlights cutting edge approaches for contemporary issues evolved in strategic marketing and the integration of theory and practice. It focuses on strategic research and innovative activities in marketing that can be used in everyday operations. The contributions have been divided into eight sections grouping emerging marketing technologies together in a close examination of practices, problems, and trends. The first section examines management challenges which influence societies, cultures, networks, organizations, teams, and individuals. It emphasizes ways business processes foster innovation and facilitate management transitions from dominant structures to more evolutionary developmental paradigms. The second section discusses the benefits and guidelines to implementation of green marketing strategies. The following section pursues new perspectives of the role of location in marketing and its impact on consumer well-being. The next section explores the impacts of user-generated content (UGC) on marketing theories and practice, which is followed by a section identifying how market-based assets can contribute to a sustainable competitive advantage. The sixth section covers understanding consumer perception to make marketing decisions. The final sections promote the use of business informatics and modeling in marketing and also the development of integrating information management in ways that change how people use information to engage in knowledge-focused activities. The papers from the proceedings of the 6th International Conference on Strategic Innovative Marketing (IC SIM 2017) have been written by scientists, researchers, practitioners, and students that demonstrate a special orientation in strategic marketing, all of whom aspire to be ahead of the curve based on the pillars of innovation. This proceedings volume shares their recent contributions to the field and showcases their exchange of insights on strategic issues in the science of innovation marketing.

How the question, Who, revolutionized marketing for me Krishna Mohan Avancha, 2019-04-20 Marketing is a very vast topic and so many forget how easy it is to get lost in this vastness and lose relevance. Currently, only 2% of brands are actually using marketing correctly, as the rest are still trying to figure out WHO to market or sell to. Marketing is not losing its effectiveness but is definitely losing relevance as most try to use it to mass usage. The idea behind this book is to bring relevance back to marketing. As I always say, You cannot make even a single sale if you do not know WHO to sell to.
