Overcoming Procrastination K. B. Bryson, 2014-07-13 Okay, let's face it: at some point in our life, all of us have said we are going to get a certain task done, yet we ended up not lifting a finger to do anything about it. That is until someone yells at us about it. However, some people are chronic procrastinators. If you constantly avoid getting things done and have a mountain of excuses lined up to explain the reasons why you are unable to do them, then look in the mirror and you will see a procrastinator. Most often, these reasons are only excuses to avoid doing the real task and going through the emotional discomfort that often comes with making significant changes in our careers and in our lives.

Procrastination can exact a pretty steep toll on your business, career, relationships, health, and finances. We all hate to admit it, but in choosing to put off tasks that can be performed today for tomorrow, we unwittingly surrender our happiness. You may be tempted to play it safe, especially when you are seriously thinking about improving your lot in life, but do you really want to look back a few years from now and blame yourself for wasting time in getting certain things done? That's where this book comes in. Join me for this quick read, and you'll be well on your way to getting things done now.

What is procrastination It is a universal temptation everyone some more some less are affected. Even experts in time management and productivity techniques often end up putting off priority actions that most require their attention. We are all encouraged continuously to postpone essential things to follow more attractive alternatives. We tend to pursue what is simpler and more likely to provide instant gratification even if it is inconsistent with our long term goals. For example we choose to spend the evening on the sofa instead of in the gym to follow our training program or we spend our time chatting with friends instead of studying for that exam that is getting closer. We constantly postpone to tomorrow that long overdue phone call that we have no desire to do or that diet that we have to start for our own good. And most of the time we have a good excuse for any of these non actions. The question is how can we reduce this trend. How can we limit its impact on our lives. We cannot eliminate it because our inclination to procrastinate is part of our nature but we can understand its functioning principles and learn to overcome it.
