Literary Insinuations

Walter F. Kolonosky,2003-01-01 Scholar satirist and critic Andrei Sinyavsky was considered so politically dangerous to the Russian communist regime that he was sentenced to the gulag for seven years Given the grim political circumstances in which he wrote it is hardly surprising that many theorists have overlooked the strain of dark humor that runs through many of his writings The first in depth examination of Sinyavsky s satirical side *Literary Insinuations* Sorting out Sinyavsky s Irreverence is one of the few English language works on this brilliant author Walter Kolonosky combines rich historical detail with close textual analysis to produce a study of playful and provocative writing which ties together many loose ends in Sinyavsky scholarship Subject Catalog Library of Congress,1978 *Subject Catalog, 1978* Library of Congress,1978

Introduction to Forestry and Natural Resources Donald L. Grebner,Pete Bettinger,Jacek P. Siry,Kevin

Boston,2021-01-19 *Introduction to Forestry and Natural Resources* Second Edition presents a broad completely updated overview of the profession of forestry The book details several key fields within forestry including forest management economics policy utilization and forestry careers Chapters deal specifically with forest regions of the world landowners forest products wildlife habitats tree anatomy and physiology and forest disturbances and health These topics are ideal for undergraduate introductory courses and include numerous examples and questions for students to ponder There is also a section dedicated to forestry careers Unlike other introductory forestry texts which focus largely on forest ecology rather than practical forestry concepts this book encompasses the economic ecological and social aspects thus providing a uniquely balanced text The wide range of experience of the contributing authors equips them especially well to identify missing content from other texts in the area and address topics currently covered in corresponding college courses Covers the application of forestry and natural resources around the world with a focus on practical applications and graphical examples Describes basic techniques for measuring and evaluating forest resources and natural resources including fundamental terminology and concepts Includes management policies and their influence at the local national and international levels
