*Voices of Individuals with Visual Impairments and Deaf-blindness in the Context of Sports* Martin Giese, Stefan Meier, Brigitta Höger, 2026-01-09 The global inclusion movement alongside the United Nations Convention on the Rights of Persons with Disabilities CRPD has shed light on the necessity to combat marginalization and discrimination faced by individuals with disabilities Despite advancements research indicates that individuals with visual impairments and deaf blindness encounter significant barriers to participating in sports physical activity and physical education Current studies reveal a gap in understanding their perspectives and experiences which is crucial for designing genuinely inclusive environments Addressing this gap requires a shift in perspective amplifying the voices of individuals with BVI and deaf blindness within scholarly discourse This call for papers aims to foster research that amplifies the voices of individuals with visual impairments and deaf blindness in the context of sports PA and PE We seek contributions that explore the lived experiences perspectives and challenges faced by individuals with BVI and deaf blindness in the aforementioned settings Additionally we encourage submissions that propose innovative methodologies to actively engage individuals with disabilities in research processes aligning with principles of inclusivity and empowerment Ultimately the goal is to advance understanding identify barriers and propose solutions to enhance the participation and inclusion of individuals with BVI and deaf blindness in sports PA and PE We invite submissions across disciplines to contribute original research articles reviews case studies and methodological papers Topics of interest include but are not limited to Experiences and perspectives of individuals with visual impairments and deaf blindness in sports PA and PE Barriers to participation and inclusion faced by individuals with BVI and deaf blindness in sports and PE settings Innovative methodologies for researching the experiences of individuals with disabilities in sports PA and PE Strategies and interventions to enhance the participation and inclusion of individuals with BVI and deaf blindness in sports PA and PE Examination of specialized PE programs for individuals with BVI and deaf blindness and their effectiveness in promoting participation and inclusion Authors are encouraged to adopt approaches in their research that authentically convey the perspectives of individuals with disabilities throughout the research process Submissions should adhere to the guidelines provided by the journal and contribute novel insights to the field of inclusive sports and physical education

**The Routledge Research Companion to Electronic Music: Reaching out with Technology** Simon Emmerson, 2018-05-16 The theme of this Research Companion is connectivity and the global reach of electroacoustic music and sonic arts made with technology The possible scope of such a companion in the field of electronic music has changed radically over the last 30 years The definitions of the field itself are now broader there is no clear boundary between electronic music and sound art Also what was previously an apparently simple divide between art and

popular practices is now not easy or helpful to make and there is a rich cluster of streams of practice with many histories including world music traditions This leads in turn to a steady undermining of a primarily Euro American enterprise in the second half of the twentieth century Telecommunications technology most importantly the development of the internet in the final years of the century has made materials practices and experiences ubiquitous and apparently universally available though some contributions to this volume reassert the influence and importance of local cultural practice Research in this field is now increasingly multi disciplinary Technological developments are embedded in practices which may be musical social individual and collective The contributors to this companion embrace technological scientific aesthetic historical and social approaches and a host of hybrids but most importantly they try to show how these join up Thus the intention has been to allow a wide variety of new practices to have voice unified through ideas of reaching out and connecting together and in effect showing that there is emerging a different kind of global music
