On Wilhelm Reich And Orgonomy:

Wilhelm Reich and Orgonomy Ola Raknes, 2004 Here is an authoritative introduction to Wilhelm Reich's science of life energy or orgonomy Ola Raknes covers every aspect of this controversial subject explaining among much else the liberation of sexual energy the nature of functional thinking mind body functional identity the four beat orgasm formula and the bearing of life energy on religion education medicine and psychology In addition his own reminiscences provide an unexpected personal dimension At the time of Reich's death in a federal penitentiary Raknes was one of the few men still loyal to him and one of the few to enjoy his full confidence Because Raknes worked so closely with Reich and later followed every development of orgonomic research Wilhelm Reich and Orgonomy fills an important place both in the context of Reich's own writings and in current studies of life energy

Selected Writings Wilhelm Reich, 2013-07-02 This anthology is not intended to replace any of the works of Wilhelm Reich but rather to serve as an introduction to them The chapters include material from The Function of the Orgasm The Cancer Biopathy Character Analysis Ether God and Devil Cosmic Superimposition and The Murder of Christ In addition the volume reprints many important later articles from various journals

On Wilhelm Reich and Orgonomy Orgone Biophysical Research Laboratory, 1993 **Wilhelm Reich and Orgonomy** Ola Raknes, 1970 **The Science of Orgonomy** Pierre F. Walter, 2010-11-14 THE SCIENCE OF ORGONOMY Revised Edition 2012 is a collection of essays on Wilhelm Reich there are two essays in English language entitled Reich's Greatest Discoveries and Orgonomy and Schizophrenia and one essay in German language entitled Wilhelm Reich und Orgonomie The author understands his engagement for Reich as a contribution to the rehabilitation of one of the greatest but also one of the most misunderstood scientists of the 20th century Reich's Greatest Discoveries is a science essay about Wilhelm Reich's unique orgone research a new branch of science that at present gains importance because it has shown us ways out of the ecological impasse Despite the outstanding discoveries that Wilhelm Reich made and the methodological soundness of the new science he founded and that he termed orgonomy Western science until very recently denied the energy principle while now the dynamic functional holistic ethereal and patterned nature of the universe is beginning to be recognized Wilhelm Reich as early as in 1945 achieved complete healing of a female schizophrenic patient using bioenergetic or as Reich termed it orgonotic treatment Reich described the treatment in a case report entitled The Schizophrenic Split that was never published and that I ordered from the Wilhelm Reich Museum in Rangeley Maine Many a reader and certainly mental health professionals know about the ground breaking work of Ronald David Laing and other members of the movement of antipsychiatry regarding the alternative treatment of schizophrenia However small is the number of individuals who have noticed that Wilhelm Reich's research and mental health treatment approach by far preceded those much more well known and acclaimed methods In fact Reich achieved remarkable results with simply redirecting the patient's orgonotic energy flow Reich's schizophrenia treatment seems revolutionary however only in the eyes of Western torture psychiatry For

those who like me have had a deeper look into Chinese medicine acupuncture and the energetic principles of Feng Shui Reich's holistic science approach and his cancer biopathy appear logical systemically sound and effective **Wilhelm Reich and Orgonomy** David Mickle Leuser, 1973 On Wilhelm Reich & Orgonomy Wilhelm Reich, 1993-01-01 Research Report and Journal of the Orgone Biophysical Research Laboratory Fourth issue in the Occasional Papers series Pulse of the Planet **Publications of the Wilhelm Reich Foundation on Orgonomy** Wilhelm Reich Foundation, 19??

Psychotherapeutic Treatment of Cancer Patients Jane Goldberg, 2018-03-15 When this book first appeared in 1981 it was the first to deal comprehensively with major issues in the psychotherapeutic treatment of cancer patients. It remains the standard volume in the field drawing together a broad spectrum of work using psychological approaches to treatment of cancer patients and to understanding the disease's sociological and psychological implications. Distinguished contributors from medicine psychiatry psychoanalysis psychology social work family and group therapy and nursing examine key issues including the role of aggression in the onset and treatment of cancer sexual functioning of patients cancer as an emotionally regressive experience cancer in children and the countertransference responses of a therapist working with a cancer patient. This volume will be of particular value to helping professionals who deal with cancer patients and their families **Jung and Reich** John P. Conger, 2005-01-12 Although contemporaries Carl Jung and Wilhelm Reich two giants in the field of psychoanalysis never met. What might have happened if they had is the inspiration behind this detailed investigation. Jung and Reich succinctly outline each man's personality and compares their lives and their work emphasizing points of convergence between them. John Conger provocatively puts Jung's mystical and psychological approach to spiritual disciplines on the same plane as Reich's controversial theories of genitality and character armor. The result is a heady what if bound to intrigue and inspire readers **Selected Writings** Wilhelm Reich, 2023-11-03 For readers unfamiliar with Wilhelm Reich's literature who are looking for that first book to read we highly recommend *Selected Writings: An Introduction to Orgonomy*. First published in 1960 this anthology was the first re-publishing of Wilhelm Reich's writings in America since the banning and burning of his literature by order of a 1954 Injunction from a U.S. Federal Court. This selection of writings from the works of Wilhelm Reich is presented as an introduction to the science of Orgonomy and includes key chapters from *Ether God and Devil* *The Function of the Orgasm* *Character Analysis* *The Cancer Biopathy* *Cosmic Superimposition* *The Oranur Experiment* and *The Murder of Christ* as well as articles from the *Orgone Energy Bulletin*. This anthology is not intended to replace any of Reich's books bulletins and journals but rather to serve as an introduction to them. It is hoped that these selections will enable the reader to follow the functional logic of Reich's body of work and to experience the excitement of a scientific legacy that extended for over a third of a century culminating in Reich's discovery and practical applications of orgone energy. *Selected Writings* also contains a brief biography of Reich a concise chronology of Reich's scientific development a glossary of terms from the science of Orgonomy a bibliography of Reich's publications Reich's Response to the Federal Court's
