**Microbiology** Gerard J. Tortora, Berdell R. Funke, Christine L. Case, 2010 This 1 selling non majors microbiology book is praised for its straightforward presentation of complex topics, careful balance of concepts and applications, and proven art that teaches. In its Tenth Edition, Tortora, Funke, Case responds to the 1 challenge of the microbiology course, teaching a wide range of reader levels while still addressing reader under preparedness. The Tenth Edition meets readers at their respective skill levels. First, the book signals core microbiology content to readers with the new and highly visual Foundation Figures that readers need to understand before moving forward in a chapter. Second, the book gives readers frequent opportunities for self assessment with the new Check Your Understanding questions that correspond by number to the chapter Learning Objectives. Then a new visual learning orientation includes an increased number of the popular Diseases in Focus boxes, newly illustrated end of chapter Study Outlines that provide students with visual cues to remind them of chapter content, and new end of chapter Draw It questions. The all new art program is contemporary without compromising Tortora, Funke, Case's hallmark reputation for precision and clarity. Content revisions include substantially revised immunity chapters and an increased emphasis on antimicrobial resistance, bioterrorism, and biofilms. The new Get Ready for Microbiology workbook and online practice and assessment materials help readers prepare for the course.
