Research Handbook on University Rankings Hazelkorn, Ellen, Mihut, Georgiana, 2021-12-10 Gathering unique and thoughtful contributions from leading international scholars this timely Research Handbook offers diverse perspectives on university rankings twenty years after the first global rankings emerged It presents an in depth analysis that reflects the current state of research on rankings their influence and impact      Global University Rankings and the Politics of Knowledge Michelle Stack, 2021-06-01 For many institutions to ignore your university's ranking is to become invisible a risky proposition in a competitive search for funding But rankings tell us little if anything about the education scholarship or engagement with communities offered by a university Drawing on a range of research and inquiry based methods Global University Rankings and the Politics of Knowledge exposes how universities became servants to the education industry and its impact Conceptually unique in its scope Global University Rankings and the Politics of Knowledge addresses the lack of empirical research behind university and journal ranking systems Chapters from internationally recognized scholars in decolonial studies provide readers with robust frameworks to understand the intersections of coloniality and Indigeneity and how they play out in higher education Contributions from diverse geographical and disciplinary contexts explore the political economy of rankings within the contexts of the Global North and South and examine alternatives to media driven rankings This book allows readers to consider the intersections of power and knowledge within the wider contexts of politics culture and the economy to explore how assumptions about gender social class sexuality and race underpin the meanings attached to rankings and to imagine a future that confronts and challenges cognitive environmental and social injustice      **Educational Rankings Annual 2006** Westney, Lynn C. Hattendorf Westney, 2005-09 Educational Rankings Annual is useful for students parents and school faculty Also administrators of libraries and educational institutions use rankings to defend budgets justify new positions obtain government funding and attract philanthropic support The annually updated resource presents more than 4 000 national regional and international lists and rankings compiled from hundreds of respected sources The entries in Rankings include a description of the ranking background information on criteria for establishing the hierarchy additional remarks about the ranking the complete or partial if extensive ranking and source citations if necessary      Impact of Global University Ranking Systems on Developing Countries Onyancha, Omwoyo Bosire, Tella, Adeyinka, 2023-06-01 The emotive discourses on the subject of university rankings are directly linked to the effect of such rankings on the performance of universities throughout the world It has been observed that the top ranked universities attract major financial commitments from the industry the best students quality researchers and a wide range of other quality endowments such as equipment libraries and laboratories It is not surprising that the ranking of universities has gained popularity and become a significant factor shaping not only the reputation of universities but also the performance of said institutions around the world including the developing countries Impact of Global University Ranking Systems on Developing Countries presents a collection of

perspectives from scholars and other stakeholders on the impact of the global ranking systems on developing countries The book is an additional resource for discussion and discourse as far as the global university ranking systems are concerned and opens new frontiers for further research Covering key topics such as assessment ethics and academic freedom this premier reference source is ideal for administrators policymakers researchers scholars academicians practitioners instructors and students

**Academic Freedom in Higher Education** Maria Slowey,Richard Taylor,2024-07-12 This timely book explores the challenges facing universities and individual scholars through an examination of the history and theory underlying the concept of academic freedom Freedom of speech is widely viewed as a central attribute of contemporary liberal democracies in which within limits differing opinions have the right to be articulated in public without fear of reprisal Academic freedom long regarded as central to the idea of the university is on the other hand a right which must be earned through the acquisition of expert knowledge and the application of intellectual rigour in teaching and research Both hard won freedoms are argued by many to be under serious threat The expert contributors to this book from different global regions examine both the importance of academic freedom and the severe threats universities face in this context in the twenty first century With its interdisciplinary perspective and cross national emphasis central issues in this text are illustrated through detailed examination of case studies and consideration of wider developments in the academy Adopting a *longue duree* approach rather than discussing the details of fast moving controversies the analyses offer insights for an educated public about an issue of pressing contemporary significance This book will be of interest to researchers policy makers staff and students across higher education and to members of the general public who are concerned about these important and contested matters

Scientometrics Recent Advances Suad Kunosic,Enver Zerem,2019-12-11 In recent years academic advancement and access to funds that stimulate scientific research have been conditioned by the scientific production of individual scientists as well as the production of scientific centers institutes and universities This has led to an increase in interest in the accelerated assessment and ranking of scientists and scientific institutions Scientometry is a sub discipline of information sciences that measures achievement in science This book provides the reader with a detailed insight into relevant scientometric methods and criteria their individual strengths and weaknesses in the process of ranking scientists scientific centers and institutions as well as their application to the process of planning scientific projects and isolated medical specialties
