Kaufman, 2016-03-16 Accounts of Jack Cade's 1450 Rebellion an uprising of some 30 000 middle class citizens protesting Henry VI's policies and resulting in hundreds of deaths as well as the leaders execution form the dominant entry in a group of quasi historical documents referred to as the London chronicles of the Fifteenth Century

However each chronicle is inherently different and highly subjective In the first study of the primary documents related to the Cade Rebellion Alexander L Kaufman shows that the chroniclers produced multiple representations of the event rather than a single unified narrative Aided by contemporary theories of historiography and historical representation Kaufman scrutinizes the differing representations and distinguishes the writers objectiveness their underrated literary skills and their ideological positions on the rebellion and fifteenth century politics He demonstrates how the use of figurative language is related to writing about trauma and how descriptions of Cade s procession through London are a violent parody of midsummer festivals In an exploration of authenticity in the descriptions of Cade Kaufman also examines the characterization and plot devices that push Cade towards the realm of myth showing that representations of Cade are influenced by popular fifteenth century stories of Robin Hood
