A Metaphorical Journey Niamh Boland, 2004 *Metaphoric Narration* Inge Crosman Wimmers, 1978 In this distinctive gem of Proustian criticism Inge Karalus Crosman defines the function of metaphor within the text Given the metaphoric saturation

of Proust's textual construction. Crosman's key to a universal interpretation is narrowed to those metaphors that build up Proustian time itself. This book well based in extant criticism moves systematically through discussion of the most simple metaphors to the most complex and compound. Crosman's masterful analysis and deconstruction leads the reader to the double function of metaphor: the narrative and the cognitive.

The Bible Through Metaphor and Translation Kurt Feyaerts, 2003. Oxford, Bern, Berlin, Bruxelles, Frankfurt, M., New York, Wien. This volume assembles selected proceedings of a conference held at the University of Leuven in July 1998. It sheds light on the tension between change and preservation in religious language. More specifically, the volume focuses on metaphor and translation as two sources of linguistic semantic change which both play an important role in the continuous process of interpreting and reinterpreting discourse, i.e. the Bible. Although operating on different grounds with different intensity and range, both processes face the same challenge of finding new, historically and contextually appropriate linguistic means to express a complex content. With regard to the cultural, religious, and historical embeddedness of different communities, the requirement of linguistic appropriateness inevitably leads to a continuous process of semantic adjustment, reinterpretation of earlier versions of a text. In dealing with religious language, however, this process of semantic change, which from a linguistic point of view may seem inevitable, sometimes faces severe opposition from the religious community itself. This very tension between the natural process of semantic change and the strong preserving power relating to the sacred content of religious language renders religious language a unique object of study for linguists, theologians, exegetes, and others.
