*Modern Sculpture Reader* Jon Wood, David Hulks, Alex Potts, 2012-08-21 In many anthologies of art sculpture is given short shrift in relation to other media if it is treated at all Modern Sculpture Reader aims to rectify this situation by presenting a collection of important texts that have defined sculpture s radically changing status and role since the end of the nineteenth century a time marked by a general reappraisal of the forms and functions of art From the rigorously theoretical to the experimental and poetic Modern Sculpture Reader offers a lively discourse on the medium by a range of artists writers critics and poets Marcel Duchamp Louise Bourgeois Claes Oldenberg Andr Breton Ezra Pound and Clement Greenberg in a variety of genres poems lectures transcribed interviews newspaper and magazine articles and artists statements These diverse text selections offer valuable insight into the development of the critical language of sculpture and its connections to other media in an era of increasingly conceptual artistic practice Many of the essays highlight key ongoing concerns such as

sculpture's physical properties and conditions of display both of which have important implications for the viewer's tactile and emotional interaction with sculptural works

Bernini Ephemeral and Preparatory Sculpture Genevieve Warwick, 2025-04-29

Taking up questions of artists' materials and technical processes currently at the vanguard of art historical scholarship this book studies the contiguity and interchange of workshop methods in the linked fabrication of both ephemeral and preparatory works by Bernini. Genevieve Warwick argues that the ephemeral arts of ritual occasion acted as a locus of artistic experiment for the artist in many respects similar to his use of preparatory models to suggest that Bernini's artistry sprang from the fabric of ritual in both material and cultural terms. From processional floats to court stage sets for the ritual occasions of church and state such ephemeral arts were largely made of wax, clay, papier mâché, wood, stucco, and plaster assembled into scenographic ensembles with textiles, canvas, and paint. Similarly, Bernini's preparatory models for marble or bronze sculpture were of plaster and clay, even mud and straw or wax and painted wood as plentiful and affordable materials that were readily available for use and reuse as required. This book will be of interest to scholars working in art history and Renaissance studies.
