## **New Race Question The How The Census Counts Multiracial Individuals:**

**The New Race Question** Joel Perlmann, Mary C. Waters, 2002-11-14 The change in the way the federal government asked for information about race in the 2000 census marked an important turning point in the way Americans measure race By allowing respondents to choose more than one racial category for the first time the Census Bureau challenged strongly held beliefs about the nature and definition of race in our society The New Race Question is a wide ranging examination of what we know about racial enumeration the likely effects of the census change and possible policy implications for the future The growing incidence of interracial marriage and childrearing led to the change in the census race question Yet this reality conflicts with the need for clear racial categories required by anti discrimination and voting rights laws and affirmative action policies How will racial combinations be aggregated under the Census s new race question Who will decide how a respondent who lists more than one race will be counted How will the change affect established policies for documenting and redressing discrimination The New Race Question opens with an exploration of what the attempt to count multiracials has shown in previous censuses and other large surveys Contributor Reynolds Farley reviews the way in which the census has traditionally measured race and shows that although the numbers of people choosing more than one race are not high at the national level they can make a real difference in population totals at the county level The book then takes up the debate over how the change in measurement will affect national policy in areas that rely on race counts especially in civil rights law but also in health education and income reporting How do we relate data on poverty graduation rates and disease collected in 2000 to the rates calculated under the old race question A technical appendix provides a useful manual for bridging old census data to new The book concludes with a discussion of the politics of racial enumeration Hugh Davis Graham examines recent history to ask why some groups were determined to be worthy of special government protections and programs while others were not Posing the volume s ultimate question Jennifer Hochschild asks whether the official recognition of multiracials marks the beginning of the end of federal use of race data and whether that is a good or a bad thing for society The New Race Question brings to light the many ways in which a seemingly small change in surveying and categorizing race can have far reaching effects and expose deep fissures in our society A Volume in the Russell Sage Foundation Census Series Copublished with the Levy Economics Institute of Bard College

**The New Race Question** Joel Perlmann, Mary C. Waters, 2005-04-07 The change in the way the federal government asked for information about race in the 2000 census marked an important turning point in the way Americans measure race By allowing respondents to choose more than one racial category for the first time the Census Bureau challenged strongly held beliefs about the nature and definition of race in our society The New Race Question is a wide ranging examination of what we know about racial enumeration the likely effects of the census change and possible policy implications for the future The growing incidence of interracial marriage and childrearing led to the change in the census race question Yet this reality conflicts with the need for clear racial categories

required by anti discrimination and voting rights laws and affirmative action policies How will racial combinations be aggregated under the Census s new race question Who will decide how a respondent who lists more than one race will be counted How will the change affect established policies for documenting and redressing discrimination The New Race Question opens with an exploration of what the attempt to count multiracials has shown in previous censuses and other large surveys Contributor Reynolds Farley reviews the way in which the census has traditionally measured race and shows that although the numbers of people choosing more than one race are not high at the national level they can make a real difference in population totals at the county level The book then takes up the debate over how the change in measurement will affect national policy in areas that rely on race counts especially in civil rights law but also in health education and income reporting How do we relate data on poverty graduation rates and disease collected in 2000 to the rates calculated under the old race question A technical appendix provides a useful manual for bridging old census data to new The book concludes with a discussion of the politics of racial enumeration Hugh Davis Graham examines recent history to ask why some groups were determined to be worthy of special government protections and programs while others were not Posing the volume s ultimate question Jennifer Hochschild asks whether the official recognition of multiracials marks the beginning of the end of federal use of race data and whether that is a good or a bad thing for society The New Race Question brings to light the many ways in which a seemingly small change in surveying and categorizing race can have far reaching effects and expose deep fissures in our society A Volume in the Russell Sage Foundation Census Series Copublished with the Levy Economics Institute of Bard College     *Immigrant Adaptation in Multi-ethnic Societies* Eric Fong,Lan-hung Nora Chiang,Nancy A. Denton,2013 As a result of international immigration ethnic diversity has increased rapidly in many countries not only in major cities but also in smaller cities This trend is not limited to the traditional immigrant receiving countries such as the United States and Canada but occurs also in many other countries where doors are gradually opening to immigration especially in Asia This combination of a growing immigrant population and ethnic diversity has fostered a more complex immigrant integration process This book addresses the subject at the city ecological level inter group level and individual level It contributes to the understanding of immigrant adaptation in a multi ethnic context brings Asian perspectives into the discussion of immigration and race and ethnic relations and will serve as a basis for future study of immigrant adaptation in a multi ethnic context     *The Schematic State* Debra Thompson,2016-10-20 Invitation Orientation Transnational biological racialism The death and resurrection of race The multicultural moment The multiracial moment The future of counting by race Appendix A List of interviews archival sources     **The Politics of Democratic Inclusion** Christina Wolbrecht,Rodney E. Hero,2005 How institutions foster and hinder political participation of the underrepresented     Mark One or More Kim W. Williams,2006 Mark One or More tells the little known story of the struggle to include a multiracial category on the U S census and the profound changes it wrought in the American political landscape The

movement to add a multiracial category to the 2000 U S Census provoked unprecedented debates about race The effort made for strange bedfellows Republicans like House Speaker Newt Gingrich and affirmative action opponent Ward Connerly took up the multiracial cause Civil rights leaders opposed the movement on the premise that it had the potential to dilute the census count of traditional minority groups The activists themselves a loose confederation of organizations many led by the white mothers of interracial children wanted recognition What they got was the transformation of racial politics in America Mark One or More is the compelling account of how this small movement sparked a big change and a moving call to reassess the meaning of racial identity in American life Kim M Williams is Associate Professor of Public Policy in Harvard s Kennedy School of Government and an expert in racial and ethnic politics and political movements The Meaning of Difference: American Constructions of Race, Sex and Gender, Social Class, Sexual Orientation, and Disability Karen Rosenblum,Toni-Michelle Travis,2008-01-31 The Meaning of Difference is a text reader about the social construction of difference as it operates in American formulations of race sex and gender social class and sexual orientation Following each framework essay is a set of readings that illustrate the concepts and processes described in the essays The readings have been selected for readability conceptual depth and applicability to a variety of statuses *The SAGE Handbook of Race and Ethnic Studies* Patricia Hill Collins,John Solomos,2010-05-17 The SAGE Handbook of Race and Ethnic Studies is one of the best handbooks outlining the latest thinking on race and ethnic studies published in recent years The breadth of themes and the depth of discussion are ambitious offering the reader an A Z guide of contemporary thinking on race and ethnicity a valuable resource for scholars and activists alike Runnymede Bulletin What is the state of race and ethnic studies today How has the field emerged What are the core concepts debates and issues This panoramic critical survey of the field supplies researchers and students with a vital resource It is a rigorous focused examination of the central questions in the field today The text examines The roots of the field of race and ethnic studies The distinction between race and ethnicity Methodological issues facing researchers Intersections between race and ethnicity and questions of sexuality gender nation and social transformation The challenge of multiculturalism Race ethnicity and globalization Race and the family Race and education Race and religion Planned and edited by a distinguished team of Anglo American scholars the Handbook pools an impressive range of international world class expertise and insight It provides a landmark work in the field which will be the measure of debate and research for years to come Latinos and Racial Identification in California Sonya M.
