The Law of Cross-Border Business Transactions

Lutz-Christian Wolff, 2017-12-15 Law of Cross Border Business Transactions aims at giving a structured introduction to the law and practice of investment deals e.g. greenfield projects, M^{erger} & lex mercatoria conflict of laws, letters of intent, position papers, heads of agreement, confidentiality and exclusivity agreements, structure and contents of international contracts e.g. contracts and smart contracts, protection of intellectual property rights and technology transfer, trade countertrade and trade financing, insurance, agency and distributorship, greenfield investments and M^{erger} & competition law and merger control, employment law, corporate governance and corporate social responsibility, international taxation and dispute settlement, and cross border enforcement of awards. This second edition updates the discussion of the different topics comprehensively. It also expands many parts and adds sections in relation to new themes that have gained importance since the publication of the first edition. In particular it addresses legal issues arising out of the digitalization of the global economy with a special focus on choice of law questions, smart contracts e.g. bills of lading and online dispute settlement. It also draws attention to the impact of China's Belt and Road initiative, Brexit and the America First foreign policy. How this will help you. Of special value is the author's precise guidance on drafting techniques and contract practice. The clarity of the presentation, the uncompromising consistency in terms of structure and a large body of references to primary and secondary sources presented in this edition ensure that legal professionals, business managers and academics as well as other interested parties can gain easy access to comprehensive and detailed information across jurisdictions.
