OECD Health Policy Studies Ready for the Next Crisis? Investing in Health System Resilience OECD,2023-02-23

The COVID 19 pandemic had massive consequences for societies and health systems across the OECD and beyond Health systems were not resilient enough Resilient health systems plan and are ready for shocks such as pandemics economic crises or the effects of climate change *Zimbabwe News* ,1996

Zimbabwe's Military: Examining its Veto Power in the Transition to Democracy, 2008-2013 Rupiya, Martin R.,2013-10-14 Political transition and democratisation challenges have been noted in African countries including Angola Burkina Faso Kenya Mali and the Democratic Republic of the Congo resulting in the African Union AU intervening on behalf of citizens using tried and tested mechanisms of imposing a power sharing agreement to preside over a transitional period during which there are key changes to the constitution and the political conduct of the incumbency and partisan institutions are weaned from seeking to perpetuate the status quo This book focuses on Zimbabwe s military and its perceived veto power in the transition to democratisation from 2008 until 2013 The objective was to analyse monitor and comment on the unique democratic transformational challenges faced by Zimbabwe s Government of National Unity One of the book s key findings is that every time partisan forces carry out an operation in the name of a political party there is a direct correlation in which the same loses its national character This is the context of the challenge facing Zimbabwean forces when used for partisan gain and why the Southern African Development Community SADC in its last communique in Maputo on 15 June 2013 sought to compel a written undertaking from the generals that they would desist from playing a direct role in the politics of the country The AU had earlier expressed its deep regret when faced with the results of serious human rights abuses that were committed with impunity *Zimbabwe, a Country Study* United States. Department of the Army,1983 *Africans in Global Migration* John A. Arthur,Joseph Takougang,Thomas Owusu,2012-08-31 Four overarching themes underscore the essays in this book These are the creation of African diaspora community and institutional structures the structured and shared relationships among African immigrants host and homeland societies the construction and negotiation of diaspora spaces and domains racial ethnic class consciousness including identity politics and finally African migrant economic integration occupational and labor force roles and statuses and impact on host societies Each of the thematic themes has been chosen with one specific goal in mind to depict and represent the critical components in the reconstitution of the African diaspora in international migration We contextualized the themes in the African diaspora as a dynamic process involving what Paul Zeleza called the diasporization of African immigrant settlement communities in global transnational spaces These themes also reflect the diversities inherent in the diaspora communities and call attention to the fluid and dynamic boundaries within which Africans create diffuse and engage host and home societies In this context the themes outlined in this book embody the diaspora tapestries woven by the immigrants to center African social and cultural forms in their host societies and communities Collectively the themes

represent pathways for the elucidation of understanding African immigrant territorialization Our purpose is to map out and identify the sources and sites for the contestations of the myriad of cultural manifestations of the new African diaspora and its depictions within the totality of the shared meanings and appropriations of the essences of African ness or African blackness The vulnerabilities struggles threats internal or external to the immigrant community and opportunities emanating from the diasporic relationships that these immigrants create are accentuated within the nexus of African global migrations We view the African diaspora in terms of spatial and geographic constructions and propagations of African cultural identities and institutional forms in global domains whose boundaries are not static but rather dynamic complex and multidimensional Simply stated we approach the African diaspora from a perspective that incorporates the historical as well as contemporary postmodern constructions of the Africa s dispersed communities and their associated transnational identity forms *Report of the Second Meeting of Deans of Medical Schools on the Role of Medical Schools in National and Regional Cooperative Health Development, Held at the School of Medicine, University of Zambia, Lusaka, January 11-14, 1983*, 1983

studies don't just document inequality they pinpoint its underlying causes Looking at the effects of international restructuring strategies on the poor the increasing control transnational corporations exert over world health and the impact of U.S. drug policy on global inequality Dying for Growth debunks the myths of global capitalism including Myth Throwing loans at developing nations will cure poverty Fact As shown in Sickness Amidst Recovery Public Debt and Private Suffering in a Peruvian Shanty Town loans can make things worse Myth Getting rid of big government automatically improves the standard of living Fact Cutting services can lead to calamity as detailed in Neoliberal Economic Policy State Desertion and the Russian Health Crisis Myth The free market is a panacea Fact There's nothing liberating about modern capitalism as demonstrated in Todo Bajo Control The Costs of Free Trade to Mexican Maquiladora Workers Dying for Growth concludes with an extensive section on alternatives to standard models Included is a chapter on health and revolution in Cuba The Threat of a Good Example and a plan for action Pragmatic Solidarity What You Can Do With passion rarely found in works of comparable analytic rigor Dying for Growth tells the stories of people trapped in the machine of growth and compels readers to recognize that the problem of inequality is not one of insufficient resources nor even of inefficiency the problem is power
