Web Based Enterprise Energy and Building Automation Systems Barney L. Capehart, Lynne C. Capehart, 2020-12-17 The capability and use of IT and web based energy information and control systems has expanded from single facilities to multiple facilities and organizations with buildings located throughout the world This book answers the question of how to take the mass of available data and extract from it simple and useful information which can determine what actions to take to improve efficiency and productivity of commercial institutional and industrial facilities The book also provides insight into the areas of advanced applications for web based EIS and ECS systems and the integration of IT web based information and control systems with existing BAS systems

Smart Cities Schahram Dustdar, Stefan Nastić, Ognjen Šćekić, 2017-05-28 This book presents a coherent novel vision of Smart Cities built around a value driven architecture It describes the limitations of the contemporary notion of the Smart City and argues that the next developmental step must actively include not only the physical infrastructure but information technology and human infrastructure as well requiring the intensive integration of technical solutions from the Internet of Things IoT and social computing The book is divided into five major parts the first of which provides both a general introduction and a coherent vision that ties together all the components that are required to realize the vision for Smart Cities Part II then discusses the provisioning and governance of Smart City systems and infrastructures In turn Part III addresses the core technologies and technological enablers for managing the social component of the Smart City platform Both parts combine state of the art research with cutting edge industrial efforts in the respective fields Lastly Part IV details a road map to achieving Cyber Human Smart Cities Rounding out the coverage it discusses the concrete technological advances needed to move beyond contemporary Smart Cities and toward the Smart Cities of the future Overall the book provides an essential overview of the latest developments in the areas of IoT and social computing research and outlines a research roadmap for a closer integration of the two areas in the context of the Smart City As such it offers a valuable resource for researchers and graduate students alike
