doesn't necessarily say which foods you can eat but specifies when you should eat. Of course if you want to lose weight or get a better health it is better to eat foods that are good for you and nutritious. However with intermittent fasting it's not going to specifically list out which foods you can and cannot have. The main thing to remember is that when you are in the fasting period you are not allowed to eat. You can still drink beverages to keep you hydrated. Some of the options include tea, coffee, water and other non-caloric beverages. Some forms of this fast will allow for a bit of food during the fasting periods but most don't. And if you like it is usually fine to take a supplement while you are on this fast as long as it doesn't contain calories.
