As children are most receptive to learning during young age, a time when they are not influenced by a lot of external factors, so the right time is to start NOW.

NCERT Mathematics Worksheets Class V Chandan Sengupta, This volume of publication is a part of Continuing Education Series. It is expected that this publication will address different needs based involvement of fellow aspirants in their regular studies. There are worksheets from different ladders of studies to fulfill the objective of extending support to self-propelled pace of learning. Most of the worksheets are from regular classroom studies. Some of the worksheets are from Olympiads and other challenging examinations. We always keep a balance between higher order challenges and lower order assignments. It will enhance the participatory skill of the fellow student and also build up the competency pattern required for gaining mastery in mathematics. All practice and guidance efforts should be guided. That is why answers are not incorporated with this volume. There is a separate volume having all the answers and other needful assistance for teachers. We can use some standard technique to correlate the memory and skill related to mathematical operations for facilitating proper and timely linkage of previous foundation with those of newly developed skill formation. We can use the worksheets and activities given in this workbook for providing an additional exposure to fellow students. Mixture of content areas will make it easy for the fellow student to grasp through it easily. Normal confluence of such practice session will also speed up the pace of learning.

The core of the curriculum represents the format of most of the school curriculum we have in practice at different boards. Most of the parts are from School level formats of general types. Main topics incorporated in this practice book are as follows:

- 1 Understanding numbers in their standard form and expanded form
- 2 Decimals and fractions
- 3 Ratio, proportion and percentage
- 4 Everyday mathematics
- 5 Divisibility rules, factors, multiples and prime numbers
- 6 Lines, rays, line segments, angles and basic shapes
- 7 Data handling: bar graphs, pie charts
- 8 Measurements: Length, outer boundaries and areas
- 9 General Understanding of Basic Shapes and three dimensional objects
- 10 Inter conversion of decimals, fractions and percentage
- 11 Problem solving abilities
