   Museum Informatics Paul F. Marty,Katherine Jones,2012-07-26 Museum Informatics explores the sociotechnical issues that arise when people information and technology interact in museums It is designed specifically to address the many challenges faced by museums museum professionals and museum visitors in the information society It examines not only applications of new technologies in museums but how advances in information science and technology have changed the very nature of museums both what it is to work in one and what it is to visit one To explore these issues Museum Informatics offers a selection of contributed chapters written by leading museum researchers and practitioners each covering significant themes or concepts fundamental to the study of museum informatics and providing practical examples and detailed case studies useful for museum researchers and professionals In this way Museum Informatics offers a fresh perspective on the sociotechnical interactions that occur between people information and technology in museums presented in a format accessible to multiple audiences including researchers students museum professionals and museum visitors   **Archives & Museum Informatics Technical Report** John Perkins,1993   *Archives and museum informatics [electronic journal].* ,1989   *Archives and Museum Informatics Technical Report* ,1989   *Recoding the Museum* Ross Parry,2007-11-19 Why has it taken so long to make computers work for the museum sector And why are museums still having some of the same conversations about digital technology that they began back in the late 1960s Does there continue to be a basic incompatibility between the practice of the museum and the functions of the computer that explains this disconnect Drawing upon an impressive range of professional and theoretical sources this book offers one of the first substantial histories of museum computing Its ambitious narrative attempts to explain a series of essential tensions between curatorship and the digital realm Ultimately it reveals how through the emergence of standards increased coordination and celebration rather than fearing of the virtual the sector has experienced a broadening of participation a widening of creative horizons and ultimately has helped to define a new cultural role for museums Having confronted and understood its past what emerges is a museum transformed rescripted re calibrated rewritten reorganised   *Archives & Museum Informatics* ,1991
