McCartan, 2014-09-23 First and foremost this book gives you a glimpse into one creative some say genius bipolar mind which I have had for a little over twelve years Beyond that using a Sacred Feminine Holy Spirit Breath and Wind of God perspective as well as an educational creative perspective and a Course in Miracles perspective I attempt to create a total world reversal of thought on all issues related to the world humans why were here and whats to come of us This book reverses so called normal human thinking about almost everything including what is life and what is death what the real story of Lucifer and Mary Magdalene John the Baptist and Jesus really is and what the actual laws of the universe really are whats actually normal and abnormal the answer will surprise you what humans are actually like as a species what the current state of our world actually is and what humans mean to Christ John the Baptist Christ Alter Ego Christ in reality and in the great scheme of things It will be no surprise that I determine that to save the world and yes it can be done love is the only question and love is the only answer The only problem is that most people on Earth arent really listening despite the fact that we live in an almost dead world mentally emotionally and spiritually The spiritual light of the world is very dim if its even shining at all anymore Humans must wake up now today This book is about starting a creative spiritual educational revolution in America and letting it spread throughout the whole world This book takes a forward looking approach to the future and gives readers a glimpse into upcoming events **Walking in a New Light** Tessa Wright, 2013-02-20 Freedom is a choice And its our right Many of us live in free and democratic nations yet hold ourselves captive within the limited perception created by our beliefs Freedom is a divine gift from our creator but it is one that many are unable to embrace because of the limitations weve placed on the human experience Walking in a New Light details a spiritual journey toward a less restricted life Wisdom and insights revealed in the course of a genuine search provide the key to releasing mysteries previously hidden Th rough changes in perception come the much needed changes in reality This story which allows the reader to enter the unique and troubling circumstances of another through the mindful art of journaling provides lessons and opportunities to promote growth and understanding Here is proof that a willing heart that seeks healing and change for self first has the potential to

heal many and can therefore create the change we all wish to see We all experience life as a journey but when we become aware of our own potential power and purpose we have an opportunity to create the circumstances that make for a kinder and more beautiful existence Walking as one we become one This union unlocks the door that holds us captive and reveals the true meaning of freedom and peace **Taking Steps Towards Mental Wellness** Scott Shoemaker,2018-07-04 Our future depends on our ability to cope rather than our ability to plan Scott Shoemaker Taking Steps Toward Mental Wellness A Personal Journey Through Anxiety Depression and ADD is the first book in the Sharing Mental Illness Series The author is able to reach out to others that suffer from anxiety depression and ADD by sharing his stories and what he did to start moving forward in his life He believes that people need real world examples and easy to understand ideas in order to make changes in their own lives The books are designed so that even a reader who suffers from ADD can make it through in a weekend Honest sharing and transparent vulnerability can be a challenge to any human being Taking Steps Toward Mental Wellness is an easy read that stirs the reader to reflection their own sense of wellbeing The insights offered lend hope and comfort Brenda Carle RN BSN PCCN Brave and raw reflection on dealing with the challenges of mental illness A good read for anyone Louisa Liguori RN BSN MBA The Oxford Handbook of Philosophy and Psychiatry K.
