Humanity's last chance lies in the biospheres that have been planted secretly across the globe. But all is not peaceful in the biosphere led by Dr Sophie Winston. With resources dwindling and tensions high, her small group of survivors is divided. Some want to fight, some want to stay hidden, and Sophie just wants to keep everyone alive. With the help of a promising new magnetic weapon, the biosphere team just might have a fighting chance to save Jeff and the world if they live long enough to use it.

Dr Sophie Winston and her team of survivors must exit the safety of their biosphere and fight off the growing horde of aliens. The Organics are still draining the oceans, raising temperatures worldwide and the few remaining humans have been herded into farms where the water in their bodies is harvested to support the growing alien army. Humanity's last chance lies with the biospheres that the mysterious New Tech Corporation has planted across the globe. With resources dwindling and a new, more terrifying form of alien hunting humans down, not all the biospheres will make it. But there is still hope. In Sophie's biosphere, her team has managed to create a magnetic weapon that just might give the human resistance a fighting chance if they can live long enough to use it. Meanwhile, the lone survivor of another failed biosphere treks across the California desert to the ocean and is rescued by an NTC submarine that has been tracking the movements of Sophie's team and the development of their magnetic weapon. An exciting update of the classic alien invasion story, *Orbs II* weaves together horror, suspense, and science fiction in a thoroughly fresh, modern, unputdownable book.
