Solutions for Management Paul D. Sweeney, Dean B. McFarlin, 2001-08-02 In *Organizational Behavior Solutions for Management* Paul Sweeney and Dean McFarlin have identified 4 key management skills areas that act as building blocks for successful behavior in management. These skills are self insight, perceptual skills, ability to inspire, motivate, lead, ability to analyze situations, and personal flexibility/adaptability. The authors also feel strongly that successful management of organizational behavior rests on the problem solving process. In fact, the 4 skills listed above enable managers to use this process to deal with the people problems they face more effectively. If nothing else, studying what organizational behavior has to offer as a field should help a person figure out his/her strengths and weaknesses.
