**Dickens, Family, Authorship** Lynn Cain, 2017-05-15. Drawing on a wide range of Dickens's writings, including all of his novels and a selection of his letters, journalism, and shorter fiction, *Dickens, Family, Authorship* provides a provocative account of the evolution of an author from whose psychological honesty and imaginative generosity emerged precocious fictional portents of Freudian and post-Freudian theory. The decade 1843-1853 was pivotal in Dickens's career. A phase of feverish activity on both personal and professional fronts, it included the irrevocable souring of his relations with his parents, the peripatetic residence in continental Europe, and a massive proliferation of writing and editing activities, including the aborted autobiography. It was a period of astounding creativity which consolidated Dickens's authorial and financial stature. It was also one tainted by loss: the deaths of his father, sister, and daughter, and the alarming desertion of his early facility for composition. Lynn Cain's substantial study of the four novels produced during this turbulent decade—*Martin Chuzzlewit*, *Dombey and Son*, *David Copperfield*, and *Bleak House*—traces the evolution of Dickens's creative imagination to discover in the modulating fictional representation of family relationships a paradigm for his authorial development. Closely argued readings demonstrate a reorientation from a patriarchal to a maternal dynamic, which signals a radical shift in Dickens's creative technique. Interweaving critical analysis of the four novels with biography and the linguistic and psychoanalytic writings of modern theorists, especially Kristeva and Lacan, Lynn Cain explores the connection between Dickens's susceptibility to depression

during this period and his increasingly self conscious exploitation of his own mental states in his fiction      Dickens and the Myth of the Reader Carolyn Oulton,2016-11-10 Cover Half Title Title Page Copyright Page Contents Acknowledgements Introduction Creating the Reader and Writing the Writer 1 Reciprocal Readers and the 1830s 40s 2 The Hero of His Life 3 First Person Narrators and Editorial Conducting Limited Intimacy and the Shared Imaginary 4 Decoding the Text 5 Afterlives Bibliography Index      **A Tale of Two Cities** Charles Dickens,2019-08-10 A Tale of Two Cities 1859 is the second historical novel by Charles Dickens set in London and Paris before and during the French Revolution It depicts the plight of the French proletariat under the brutal oppression of the French aristocracy in the years leading up to the revolution and the corresponding savage brutality demonstrated by the revolutionaries toward the former aristocrats in the early years of the revolution It follows the lives of several protagonists through these events most notably Charles Darnay a French once aristocrat who falls victim to the indiscriminate wrath of the revolution despite his virtuous nature and Sydney Carton a dissipated English barrister who endeavours to redeem his ill spent life out of love for Darnay s wife Lucie Manette      *A Research Guide to Gothic Literature in English* Sherri L.
