Oxygen Transport to Tissue XXVII Giuseppe Cicco, Duane F. Bruley, Marc Ferrari, 2006-11-22 Proceedings of the 32nd scientific meeting of the International Society on Oxygen Transport to Tissue ISOTT in Bari Italy August 21-26 2004

Oxygen Transport to Tissue XXVII, 2006 **Oxygen Transport to Tissue XXVI** Paul Okunieff, Jacqueline P. Williams, Yuhchayau Chen, 2006-06-18 The International Society of Oxygen Transport to Tissue ISOTT was founded in 1973 to provide a forum for bioengineers, basic scientists, physiologists and physicians to discuss new data, original theories, new interpretations of old data and new technologies for the measurement of oxygen. At each annual meeting all posters are presented orally along with plenary lectures and all presentations are given in a general session attended by everyone. Each meeting has had a specific focus ranging from neonatology to physical chemistry to cancer biology. The Society has helped to build many careers through opportunities to meet leaders in the field and through awards made to young physicians and scientists. The Society also through cross fertilization of ideas and scientific comradery has inspired many breakthroughs in clinical medicine that now benefit mankind. I find myself president of the society after having been a winner of the Melvin Knisely Award for young scientists in 1991. The 2003 meeting emphasized the role of oxygen and oxygen measurement in tumor growth, metastasis, physiology and treatment resistance. Additionally, however, completely novel approaches to measurement of tissue oxygen were presented, notably work by Dr Takahashi and molecular methods for estimating tissue oxygen were evaluated. Papers discussing other aspects of oxygen measurement and pathophysiology were presented including in vivo ESR spectroscopy, notably including Dr Swartz and colleagues, exercise physiology, organ transplant outcome discussed by Dr Cicco, our 2004 president, circulatory physiology and cerebral oxygenation, notably including Dr Chance.

Kang, Duane F. Bruley, 2008-01-08 This comprehensive survey covers all aspects of oxygen delivery to tissue including blood flow and its regulation as well as oxygen metabolism Special attention is paid to methods of oxygen measurement in living tissue and application of these technologies to understanding physiological and biochemical basis for pathology related to tissue oxygenation This multidisciplinary book is designed to bring together experts and students from a range of research fields Oxygen Transport to Tissue XXVIII David Maguire, Duane F. Bruley, 2007-08-11 At the beginning of a Southern Hemisphere Autumn the ISOTT tribe assembled for its annual corroboree on the banks of the Brisbane River in Australia for five days of exciting science Some of the tribe had travelled from as far as Sweden and other parts of Europe many had spirited themselves across the Pacific Ocean from the Americas Yet another small contingent had paddled down from Japan All came with message sticks from their camp sites The conference opened with an outdoor barbecue at the Southbank precinct with the stars of the Southern Cross painting the river on one side and the artificial beach on the other a perfect venue to meet old friends and to welcome new ones as a cool breeze wafted over our fires For the next five days there was the usual focus on oxygen measurement techniques its role in cancer and other diseases that beset us mortals and the biochemistry and physiology of this small vital molecule It still astounds many that we have not yet learnt everything there is to know about this valuable friend albeit a dangerous foe Time was found for us to visit Australia Zoo and stand in awe before exhibits of Australia's wild life great vicious creatures unchanged from the age of the dinosaurs poisonous snakes and spiders and gentle marsupials that posed for our digital cameras *Oxygen Transport to Tissue XXX* Per Liss, Peter Hansell, Duane F. Bruley, 2008-12-04 In 1772 in Uppsala the Swedish chemist Karl Wilhelm Scheele discovered the element Oxygen Two hundred and one years later in 1973 the International Society on Oxygen Transport to Tissue ISOTT was founded Since then there has been an annual ISOTT meeting After 24 years of international ISOTT meetings it was decided at the 2005 summit in Bary Italy that the 2007 meeting was to be held in Uppsala Sweden Thus after the Louisville meeting we in the Uppsala group withdrew to the Edgewater Resort at Taylorsville Lake outside Louisville and prepared the Uppsala ISOTT meeting by tasting Kentucky Bourbons smoking cigars while bathing in a jacuzzi in the hot dark Kentucky night full of fire flies and a sky full of stars The ISOTT program should include different aspects of oxygen however it is accepted that each meeting has its own local touch We decided to focus the Uppsala ISOTT meeting on the theme of Imaging and measuring oxygen changes With this in mind we invited scientists within and outside the ISOTT society We then also received lots of good abstracts from ISOTT members that were included in the program Lars Olof Sundel f introduction speech AIR AND FIRE concerned how oxygen was

discovered in Uppsala in 1772 by Karl Wilhelm Scheele After the introduction speech a get together event took place in the magnificent and spacious foyer of Uppsala University main building The vice chancellor Ulf Pettersson welcomed all delegates to Sweden and Uppsala *Oxygen Transport to Tissue XXIV* Jeffrey Dunn, Harold M. Swartz, 2012-12-06 This volume contains refereed manuscripts prepared from presentations made at the 21st annual meeting of the International Society on Oxygen Transport to Tissue ISOTT The meeting was held in Hanover NH USA at Dartmouth Medical School the 3rd oldest medical school in the USA ISOTT attempts to produce high quality publications on cutting edge topics relating to oxygen in living systems The goal is to allow contributors to contribute original data as with a main stream journal article but also to voice individual opinions and ideas in a more relaxed scientific forum The meeting brought together an international group of scientists who share a common interest in the measurement and role of oxygen in living systems The organizers of ISOTT99 made a special effort to bring together people from industry medicine and basic sciences in order to improve the links in the chain of discovery through to application As a result this volume contains publications on a range of subjects There are contributions from companies on modifiers of oxygen carrying capacity allosteric modifiers of hemoglobin and infusible oxygen carriers or blood substitutes technical reports on oxygen measurement devices including advances in near infrared spectroscopy and imaging oxygen electrodes magnetic resonance spectroscopy and imaging and fluorescence based measurements There are medically related sections on modifying and measuring tumor oxygenation in order to improve therapy assessment and interpretation of oxygenation in the central nervous system and general issues relating oxygen to pathological conditions **Oxygen Transport to Tissue XVIII** Edwin M. Nemoto, Joseph C. LaManna, 2012-12-06 The 23rd annual meeting of the International Society on Oxygen Transport to Tissue took place from August 23-27 1995 at the Station Square Sheraton along the shores of the Monongahela River where it meets with the Allegheny and Ohio Rivers to form the Point of the city of Pittsburgh Pittsburgh was a convenient location for the meeting being between both the East and West coasts of the United States and between the Asian and European continents It is easily accessible by air via its large international airport In addition Pittsburgh has just recently undergone a transition from the steel mills and industries of old to an age of computers and biotechnology as evidenced by the new Biotechnology Center of the University of Pittsburgh where a lunch and tour were provided for interested participants On the tour the participants got to see the mix of projects ranging from molecular biology to clinical projects studying membrane oxygenators ventricular assist devices oxygen carriers and more representing the forefront of research on oxygen delivery systems to tissue *Oxygen Transport to Tissue XXVIII* David J Maguire, Duane F Bruley, David K Harrison, 2016-05-01 At the beginning of a Southern Hemisphere Autumn the ISOTT tribe assembled for its annual corroboree on the banks of the Brisbane River in Australia for five days of exciting science Some of the tribe had travelled from as far as Sweden and other parts of Europe many had spirited themselves across the Pacific Ocean from the Americas Yet another small contingent had paddled down from Japan All came with message

sticks from their camp sites The conference opened with an outdoor barbecue at the Southbank precinct with the stars of the Southern Cross painting the river on one side and the artificial beach on the other a perfect venue to meet old friends and to welcome new ones as a cool breeze wafted over our fires For the next five days there was the usual focus on oxygen measurement techniques its role in cancer and other diseases that beset us mortals and the biochemistry and physiology of this small vital molecule It still astounds many that we have not yet learnt everything there is to know about this valuable friend albeit a dangerous foe Time was found for us to visit Australia Zoo and stand in awe before exhibits of Australia's wild life great vicious creatures unchanged from the age of the dinosaurs poisonous snakes and spiders and gentle marsupials that posed for our digital cameras
