The Teacher's Journey Jeffrey A. Kottler, Ellen Kottler, 2012-11-26 Make every day of your teaching count How many times have you wished your teaching degree came with a handbook Whether you're a new teacher or a veteran looking for inspiring new ideas and insight best selling authors Jeffery and Ellen Kottler have crafted a guidebook to help you navigate the milestones challenges and decisions that every educator faces Packed with stories strategies and activities The Teacher's Journey is all about building meaningful collaborative relationships with your students and colleagues while nurturing your own passion and commitment to teaching You'll discover how to Motivate disengaged students through solid interpersonal connections Communicate effectively with parents counselors and administrators Advance your professional growth through increased school and district involvement Understand your teaching self more deeply through reflection Build a culture of tolerance and respect in the classroom Although your contact with a student may be as brief as a single year the impact can be felt across a lifetime Here's a book to help make that possible Resources in Education, 1996 Strategy Journeys

David Booth, 2016-09-14 Strategy Journeys starts from the premise that strategic planning suffers from a bad press it can be seen as complex technical remote from the day to day reality of an organisation undertaken by an elite specialist executive group producing threatening changes whose rationale is barely understood or perhaps worse still having no worthwhile impact at all For many senior executives strategic planning is too daunting a task which is why they often seek help from those with the expertise to guide the process they have a severe lack of confidence in their own ability to design plan and implement such an important and major project Yet organisations have never had greater need for a flexible resilient and engaging approach to strategic planning than now How do those leading an organisation know where to start what approach to take and how to go about the process of strategic planning David Booth aims to help them by demystifying the concept and propounding a first principles approach to developing a strategic plan within the context of the individual organisation and with the flexibility to adapt the process to focus on what really matters He suggests the key questions that should be asked when considering embarking on a strategic planning journey to help design and guide the process Mission to Malawi
