Building a Windows HTPC Terry Walsh, 2014-02-02 Building a Windows Home Theatre PC is We Got Served's definitive guide to planning building installing and using a Windows based home theatre PC. If you're serious about streaming and managing your music and movies collection then a Home Theatre PC HTPC puts you firmly in control. Sure you can stream media on Connected TVs Blu ray players and other receivers but you have limited opportunities to customise and tailor those offerings to your needs your family's needs and the needs of your home. Depending on your choice you get these services miss out on those services and are reliant on a benevolent manufacturer to continue adding new apps and maintaining existing apps. But a HTPC with a small footprint powerful and silent hardware running slick easy to manage media center software is not a dream. It's available for you today. Right now. You can build the hardware you want install the services you prefer and play the media you love. In this 513 page guide we walk you step by step through creating a first class small and mighty HTPC. You'll plan the specifications components and form factor you need select the hardware and learn how to assemble a barebones kit such as our reference build an Intel NUC HTPC or build a PC from scratch. From there we deep dive into maximising performance of your HTPC through tweaking motherboard settings and installing Intel's Rapid Start and Smart Connect management applications. We'll install the latest release of Windows and configure the operating system for HTPC use tailoring settings to support DTS and Dolby Digital audio then enhancing video support for Blu ray disc. With support for Blu ray on board you'll be guided through advanced topics like region unlocking and DVD Blu ray ripping to a choice of formats including MKV BDMV and ISO for streaming in your favourite media center software. We install USB and Network TV Tuners for configuring Live and Recorded TV and use DVBLINK to integrate our channels and EPG into a variety of popular media applications. If you think we're done then hold on. The guide takes a detailed look at configuring a universal remote control the Logitech Harmony Hub for use with our HTPC and look at various ways to download and manage music video and TV metadata for our media collection. You'll learn the basics of popular file downloaders SABnzbd and uTorrent and we wrap up with a comprehensive review of leading media center packages Plex Media Server and XBMC. Building a Windows Home Theatre PC is packed with tips tricks and tutorials to help you build a kick ass home theatre PC that will last you for years to come.

Microsoft's free Movie Maker 2 will make it simple to capture, edit, and share your home movies. We agree, but how do you know where to start or where you're going? The answer is Windows Movie Maker 2 Zero to Hero, which will take you from filming your movie with useful tips to improve the quality through editing and adding effects to premiering your masterpiece to your friends and family. Zero to Hero is more than a catchy slogan and an opportunity for puns and graphical representations of tights, capes, and phone booths. It's a style of learning designed by friends of ED to reach beyond dry technical explanations and dusty old authors who don't know how it is for real users and wouldn't know good design if it slapped them round the face with a wet fish. With a Zero to Hero book, you can choose how you learn. You can choose to learn everything you need to know about Windows Movie Maker 2 by working through the first section of the book from start to finish. Alternatively, you can dive straight in to the inspirational Hero chapters and refer back as and when you need. Then later when you're a hero yourself, the book is easily used as a reference tool. When you're done, you'll be ready to wear your underwear on the outside, metaphorically speaking, of course.
