**Jewish Roots of American Liberty** Wilfred M. McClay, Stuart Halpern, 2025-09-23 For much of American history an impassable gulf seemed to separate Jews and Christians keeping their respective peoples and cultures far apart But in recent decades that has begun to change The rise of a militant secularism one equally hostile to Israel and to America s Judeo Christian values and institutions has unexpectedly drawn Jews and Christians closer together In the face of a common civilizational threat the study of the two traditions joint contributions to the West has risen to the fore Jewish Roots of American Liberty illustrates how the free institutions principles and liberties that we value so much in today s America including Christianity itself are securely grounded in Jewish antecedents The twenty one chapters that comprise this book offer a sampling of the many ways Biblical cultural literary and political that the Hebraic tradition has contributed to the treasury of American self understanding Topics range from the titanic influence of the Hebrew Bible on the political culture of the American Founding to the distinctly Hebraic vision of figures like John Milton Nathaniel Hawthorne and Abraham Lincoln to the Biblical heroes whose examples run through the canon of the American imagination and more Suitable for both classroom use and stand alone reading the highly accessible contents of Jewish Roots of American Liberty will inform and inspire those who want to illuminate the bond between the American and Jewish stories and convey the blessings of that bond to a rising generation

**The Sovereignty Wars** Stewart Patrick, 2019-05-21 Protecting sovereignty while advancing American interests in the global age Americans have long been protective of the country s sovereignty beginning when George Washington retired as president with the admonition for his successors to avoid permanent alliances with foreign powers Ever since the nation has faced persistent often heated debates about how to maintain that sovereignty and whether it is endangered when the United States enters international organizations treaties and alliances about which Washington warned As the recent election made clear sovereignty is also one of the most frequently invoked polemical and misunderstood concepts in politics particularly American politics The concept wields symbolic power implying something sacred and inalienable the right of the people to control their fate without subordination to outside authorities Given its emotional pull however the concept is easily highjacked by political opportunists By playing the sovereignty card they can curtail more reasoned debates over the merits of proposed international commitments by portraying supporters of global treaties or organizations as enemies of motherhood and apple pie Such polemics distract Americans from what is really at stake in the sovereignty debate namely the ability of the United States to shape its destiny in a global age The United States cannot successfully manage globalization much less insulate itself from cross border threats on its own As global integration deepens and cross border challenges grow the nation s fate is increasingly tied to that of other countries whose cooperation will be needed to exploit the shared opportunities and mitigate the common risks of interdependence The Sovereignty Wars is intended to help today s policymakers think more clearly about what is actually

at stake in the sovereignty debate and to provide some criteria for determining when it is appropriate to make bargains over sovereignty and how to make them *Communications Lawyer*, 2001 **Political Theory as an Avocation** Peter Brodie Miller, 2010 *Keeping the Republic: 4th Edition Full* Christine Barbour, Gerald C.
