**Survival: June - July 2023** The International Institute for Strategic Studies (IISS), 2023-06-09 Survival the IISS's bimonthly journal challenges conventional wisdom and brings fresh often controversial perspectives on strategic issues of the moment. In this issue Hannah Aries Bastian Giegerich and Tim Lawrenson assess that Europe's defence industry will struggle to meet increased production needs. In 2007 the late Ronald Steel judged that while the Iraq War had weakened the United States it would not profoundly affect US foreign policy. From the archive Dana H Allin reflects on Ronald Steel's legacy and prospects for the extended American Century. Liana Fix argues that the West should formulate security guarantees for Ukraine in parallel with its counter offensive. Daniel Sobelman assesses that the Yemen based Houthi rebel movement is emulating Hezbollah. And seven more thought provoking pieces as well as our regular Book Reviews and Noteworthy column. Editor Dr Dana Allin Managing Editor Jonathan Stevenson Associate Editor Carolyn West Editorial Assistant Charlie Zawadzki

**Space Expansionism and Criminology** Dawn L. Rothe, Victoria E. Collins, 2025-02-18 We have entered a recent zeitgeist the era of the new space age driven by billionaires technological advancements and a few dominating state powers. While the race to space may be said to offer new opportunities for humanity we ask is it predicated on the same logics and historical patterns of the past? This question guides our approach and critical assessment of human expansionism into space. Space Expansionism and Criminology: The Emerging Terrain of Crime, Harm and Violence offers readers a critical analysis of space expansionism and today's race to space that has come to define our contemporary era. Taking a retrospective and prospective approach we delve into the choices being made the justifications being offered and those excluded from the hegemonic discourse of the benefits of humans as extraplanetary beings. Space Expansionism and Criminology includes chapters on the historical roots of today's space race, weaponization and realpolitik space junk and debris, space mining and resource extrapolation, the burgeoning space tourism market, the manufacturing of space nostalgia from the 1950s through today and efforts towards and claims making for space colonization to save Earth and humanity.
