Evaluation of the Marketing Strategy of Tesla Motors Inc Dominic Birk,2015-11-06 Research Paper undergraduate from the year 2015 in the subject Business economics Offline Marketing and Online Marketing grade 1 0 University of applied sciences Cologne language English abstract Tesla Motors Inc is a car manufacturer which polarizes like no other company in this industry It is often said that with its business model and its special strategic moves Tesla confuses competitors utilities and marketing agencies Therefore this assignment will focus on the analysis of the key aspects of Tesla s business model in order to find out why it is considered to be different Moreover the objective of this assessment is to find out whether this strategy is useful or if it should be changed The market definition and analysis of the first assignment is hereby the basis for this evaluation of Tesla Motor s current marketing strategy Therefore the focus will be again on the company s domestic market the United States of America Furthermore only Tesla s automotive

products will be taken into consideration its recently launched home battery will not be object of this work     *Ludicrous*  
Edward Niedermeyer,2019-08-20 Tesla is the most exciting car company in a generation but can it live up to the hype Tesla  
Motors and CEO Elon Musk have become household names shaking up the staid auto industry by creating a set of innovative  
electric vehicles that have wowed the marketplace and defied conventional wisdom The company s market valuation now  
rivals that of long established automakers and to many industry observers Tesla is defining the future of the industry But  
behind the hype Tesla has some serious deficiencies that raise questions about its sky high valuation and even its ultimate  
survival Tesla s commitment to innovation has led it to reject the careful zero defects approach of other car manufacturers  
even as it struggles to mass produce cars reliably and with minimal defects While most car manufacturers struggle with the  
razor thin margins of mid priced sedans Tesla s strategy requires that the Model 3 finally bring it to profitability even as the  
high priced Roadster and Model S both lost money And Tesla s approach of continually focusing on the future even as  
commitments and deadlines are repeatedly missed may ultimately test the patience of all but its most devoted fans In  
Ludicrous journalist and auto industry analyst Edward Niedermeyer lays bare the disconnect between the popular perception  
of Tesla and the day to day realities of the company and the cars it produces Blending original reporting and never before  
published insider accounts with savvy industry analysis Niedermeyer tells the story of Tesla as it s never been told before
