*Challenges and Opportunities for Respiratory Syncytial Virus Vaccines* Larry J. Anderson, Barney S. Graham, 2013-12-20 Although respiratory syncytial virus RSV has been a high priority for vaccine development for over 50 years now still no vaccine is available and none has yet demonstrated sufficient promise to move to licensure The success of RSV immune prophylaxis and the availability of ever more powerful tools to study the immune response and pathogenesis of disease combined with the ability to construct a wide variety of vaccines using different vaccine platforms give us grounds to believe that an RSV vaccine is within reach This book brings together in one source what is currently known about the virus its clinical and epidemiologic features the host response and pathogenesis of the disease vaccines vaccine platforms and treatment and animal and tissue culture models of RSV infection It is designed to organize the critical information relevant to RSV vaccine development facilitate the assimilation of data and speed progress toward producing a safe and effective vaccine

*Epistemic Challenges in a Modern World* Gunnar Skirbekk, 2020 The modern world is in crisis a double crisis as it were at the factual level with various challenges that tend to interact and reinforce each other and at the epistemic level where no single science or expertise alone can grasp the complexity of what is going on In this publication such basic epistemic challenges are addressed critically and constructively and in this perspective four current cases are discussed and assessed such as the United Nations Agenda 2030 for sustainable development On this background some proposals for epistemic and institutional improvements are considered
