Drafting to Win Robert Zarzycki, 2005 The business non profit and government sectors are becoming aware that not all models of leadership are appropriate for their respective sectors Executives managers and course developers are challenging the assumptions underlying many of the popularized leadership models as they assess leadership effectiveness against the organization s core competencies Yet this awareness is absent from the Ministry sector As more church responsibilities fall on the shoulders of the laity there is an increased need for leaders fully engaged in the true meaning of

ministry functions Although in the last 40 years the Catholic Church in the United States has seen a 26% decline in the number of priests there has been a 39% increase in lay membership Accordingly the Catholic Church can ill afford ministry leaders that unknowingly apply their workplace leadership techniques many times to the detriment of ministry intent This book is about creating awareness in the misguided use of secular leadership models in ministry and developing a leadership model more congruent with lay ministry intent By bridging the gap between collaborative theory and the mission of the laity a model of collaborative leadership is presented that is capable of contributing to a reversal of this potentially damaging trend
