Financial Accounting Cases Camillo Lento, Jo-Anne Ryan, 2019-09-16 Canadian Financial Accounting Cases 3rd edition has been developed to bridge the gap between the foundational concepts and the real world. Students are introduced to the case study methodology for financial accounting which focuses on identifying the issue, understanding implications, developing alternatives and making recommendations. Students must also be able to understand the overall financial reporting landscape and the overall impact of the individual accounting issues. The cases range from introductory level to advanced level and can be used as assignments, exams or for in-class discussions. The cases have been developed using IFRS Part I, ASPE Part II or ASNPO Part III as the accounting frameworks, providing students with exposure to many different types of organizational structures and have been linked to the CPA Competency Map. Instructors are provided with detailed teaching notes and marking keys that will assist in guiding the class discussions and assessments. **Class and Everyday**

Life Kirsteen Paton, 2023-11-28 Exploring the issues of class through in-depth studies of housing, sport, art, music and politics in Britain. *Class and Everyday Life* persuasively demonstrates the pervasive influence of class on everyday life and the need to centre a radical understanding of class within emancipatory political movements. The need for a more expansive understanding of class is politically urgent. There is a disconnect between descriptive and analytical approaches to class and the politics of class and realities around how class is lived. Discourse has been shaped by top-down frameworks of analysis and measurements which have stripped the study of class of its political radicalism. This book makes the case for a sociology of class which is informed by a politics of class based upon using the everyday as the point of enquiry. It presents a sociology of class from the bottom up which focuses on everyday life and the point at which class is made and remade. In doing so, it advocates for an attentiveness to class and everyday life through a conjunctural analysis. Using an everyday lens, this book examines how the shifting conjunctures manifest in everyday spaces in classed ways and how such changes are negotiated, resisted and shape the working class subject and communities. This is based upon an understanding of everyday classed experiences which identifies and challenges inequalities while also recognising value and hope. This perspective aims to offer a recognition of both the opportunities and challenges of class as a way of developing a stronger, more politicised understanding of class which takes solidarity and class community power seriously to resist inequality and develop emancipatory politics. This urgent and impassioned book will be essential reading for students, academics and activists with an interest in the lived experience of class in Britain today. [The ABC's of Collecting Online](#) Ray Boileau, 1999 If you love antiques or collectibles and aren't Internet savvy, this book will be the best investment you ever make. No matter what you collect, you'll have access to more antiques and collectibles online than with years of searching through traditional channels. In clear, understandable, everyday English, this book leads you through the steps to becoming comfortable with buying and selling on the net. 95 black and white illustrations. **Encyclopedia of British Football** Richard Cox, Dave Russell, Wray
