## **Multiplication Number Splitting Grid Method:**

Primary Mathematics: Teaching For Understanding Barmby, Patrick, Bilsborough, Lynn, Harries, Tony, 2009-09-01 This book addresses the particular areas of mathematics within the primary curriculum that teachers find difficult to teach and in which children struggle to achieve. It begins with introductory sections on how children learn mathematics and is then organised on a subject area basis dealing with the teaching of particular maths topics. Key topics addressed include rounding and measuring, means and medians, fractions, negative numbers, commutative and associative laws in number operations and shape and space. Within each chapter the authors examine the themes of representing, reasoning and communicating, drawing out both the subject knowledge and ways of teaching each topic. A reference section for studies drawn upon is provided at the end of each chapter.

Framework Maths David Capewell, 2002 The Framework Maths course is designed to match the pitch, pace and progression of the Framework for Teaching Mathematics at Key Stage 3. This students book is written for the Extension tier in Year 7 and is suitable for students working beyond the Framework objectives. It comprises units organized clearly into full colour spreads. Each unit offers prior learning points identified at the start so that revision is a continual process, learning objectives covered with examples showing the key techniques, plenty of practice with questions pitched at the level suggested in the framework and summaries and review questions to help students gain responsibility for their learning.

Basic Maths For Dummies Colin Beveridge, 2011-09-19 Basic maths for dummies offers the content people need to improve their basic maths skills. Filled with real world examples and written by a mathematician who specialises in tutoring adults and students, the book also provides practical advice on overcoming maths anxiety and a host of tips, tricks and memory aids.
