**Applications DBA Field Guide** Paul Jackson, Elke Phelps, 2006-11-22 Oracle Applications DBA Field Guide provides scripts, notes, guidelines and references to guide you safely through the crucial day to day administration tasks that fall within your jurisdiction. This includes configuring, monitoring, performance tuning, troubleshooting and patching. This book contains tips, techniques and guidance for administering the highly complex Oracle E Business Suite running Oracle9i or Oracle10g on UNIX or Linux servers all in an easy to read and quick to navigate format. Even for the experienced database administrator, Oracle applications are complicated to administer and most other documentation out there is difficult to find and understand. Whether you're an experienced Oracle database administrator or a relative newcomer to Oracle 11i Applications, perhaps migrating from PeopleSoft, JD Edwards or Siebel, this book will enable you to make a real impact on the ease and efficiency of your day to day administrative tasks and is relevant for Oracle releases 12 and Fusion.

[Beginning Oracle Application Express](#) Rick Greenwald, 2011-03-16 This book shows you how to master Application Express to build effective web based Oracle database applications. The author provides hands on step by step guidance on the complete development process through creating, customizing and extending the application. In addition to presenting how to build a simple application, this guide also details reporting and charting themes and templates and security. Additionally, it demonstrates how to use packaged applications and how to work with multiple applications. Data migration and integration with the Oracle environment is also discussed.
